Brands	<ul style="list-style-type: none"> TUNAP OEM Car manufacturers 	<ul style="list-style-type: none"> Private Brand for trade and manufacturers 	<ul style="list-style-type: none"> TUNPACK 	<ul style="list-style-type: none"> TUNAP
Production/ Packaging	Aerosols, cartridges, cans, canisters, drums, containers, bulk	Aerosols, gels, foams, pump sprays	Complete machine for PU foam production	Cans, aerosols, tubes, cartridges, canisters and drums

TUNAP is member of the

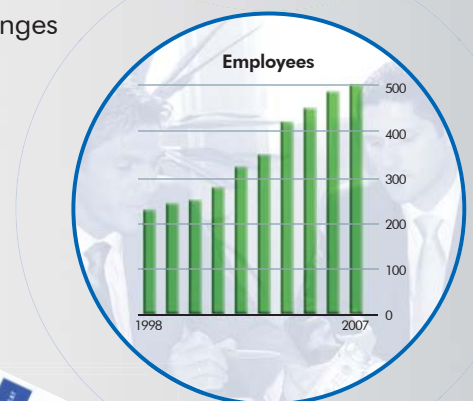

TUNAP Innovation

Research, development, manufacturing and sales from one source: with this unique market position we present ourselves as a successful innovative technology leader. For years we have recorded increasing demand for our products and impressive company development.

With our ideas and systems we bring lasting improvements to the commercial success of our customers. From business consultancy via technical product training to safe handling of chemicals, TUNAP provides a complete consultancy plan.

Safety, environmental sustainability, cost-effectiveness and customer orientation are TUNAP GROUP's prime goals. Implementation of all these objectives will remain one of our most important challenges in the future.

TUNAP Our Claim

- Intensive analysis of existing systems and processes
- Outstanding developmental know-how
- Highest degree of technical competence
- Efficient and extensive customer care
- Business revenue plans
- Sales promotion communication plans
- Environmental and health protection
- Ongoing customer training programme

TUNAP is ISO 9001, ISO 14001 and OHSAS 18001 certified

INDUSTRIAL LUBRICANTS

TUNAP Special Lubricants for Industry

Whether in heavy industry, the food sector or the automotive industry, TUNAP is a synonym for efficient high performance lubricants.

We develop and sell special lubricants for a wide range of industrial sectors and for the most severe and demanding areas of application.

The same applies for maintenance and repair applications: Our customers benefit from individual support and maximum cost-effectiveness. We see ourselves as a reliable partner providing quality, flexibility, cost-effectiveness and safety. We provide support in the form of training and risk analyses.

TUNAP products are also used in the food industry and in ecologically sensitive areas. Most significantly at the development stage great importance is attached to safety and eco-toxicology of lubricants.

From lubricant management via planning to cost reduction and topics regarding disposal more and more customers are choosing to place their trust in the TUNAP GROUP.

For use in the food industry we offer high-class NSF-approved products.

TUNAP Services for Household, Technology & Cosmetics

Via strategic alliances TUNAP produces private brand products. Our clients include well-known companies and trading firms in the household, hair and body care sectors. Above all TUNAP produces a wide spectrum of technical and chemical products under the brand names of industry companies and organisations.

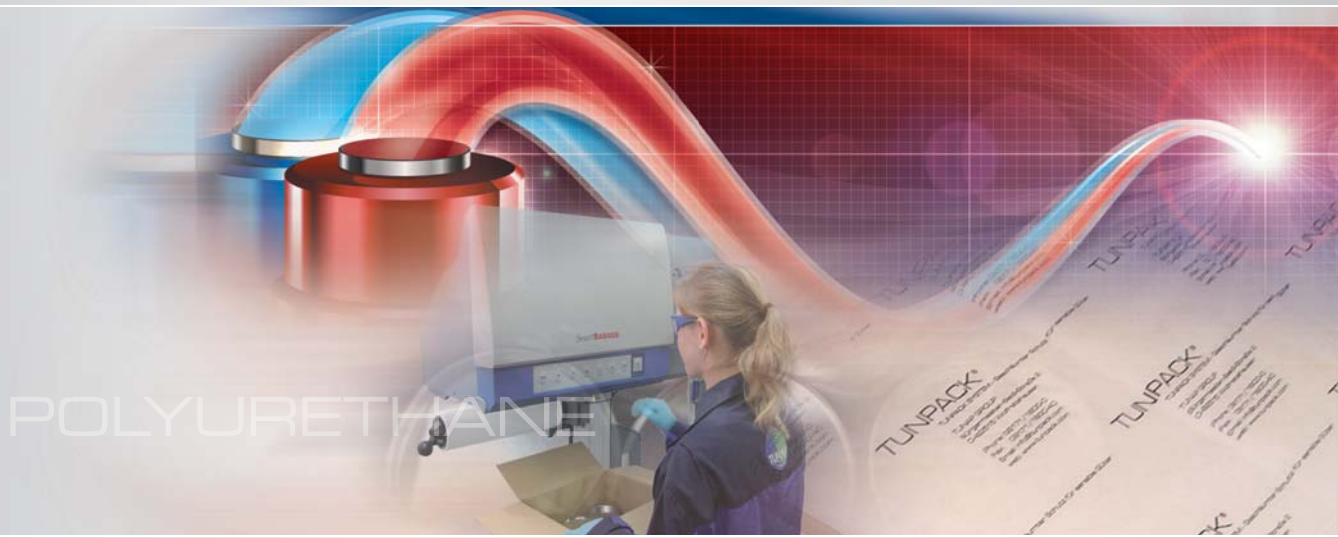

In this regard we offer a full service from product development tailored to the customer's specification via materials procurement, production and logistics through to compilation of all relevant product documentation.

In modern laboratories visions are turned into efficient practical solutions with flexible effectiveness. This gives our customers a comprehensive choice with regard to processing, filling and propellant options.

Our Quality Assurance System and first and foremost our highly motivated team ensure optimum results for our customers.

TUNAP Polyurethane

Are you utilizing the best packaging system on the market? Do you want a system that helps you to significantly increase your packaging productivity and cost-effectiveness in one step?

TUNPACK provides the answer: "Easily packed – well protected" in the form of a packaging system which combines cutting edge technology with rational handling, reduced production costs and longer shelf life. Using PU foam, items to be shipped are encased in foam and therefore packed flexibly, quickly, beneficially and securely.

TUNPACK Service – is always there when you need it: We offer you professional advice for individually tailored solutions and cost-free installation by a specially trained Service Team. In addition you receive targeted training for your operating staff.

We guarantee you 24/7 online system monitoring and system parameter checking plus prompt support when in need of service.

In addition to packaging solutions we continually develop additional innovative polyurethane applications.

SERVICING - AT THE HIGHEST LEVEL

TUNAP Vehicle Servicing at the highest level

For vehicle manufacturers, car sales outlets and workshops TUNAP is After Sales business partner Number 1. TUNAP is the acknowledged specialist for all technical chemical questions. Our customers profit from innovative, high-class products and systems specially tailored to extended servicing intervals.

For service, repairs and problem solutions, innovative tested and approved TUNAP solutions have won market recognition.

With top quality, efficient profit calculations and creative services we ensure vehicle servicing of the highest order. In this way we achieve win-win situations for manufacturers, car sales dealership, workshops and end consumers.
