Table of Contents

TUNAP offers a comprehensive service from product development to the delivery of finished products.

The TUNAP R&D team formulates concepts around care and cleaning agents, lubricating greases, oils, pastes and additives - highly specialised or cost-optimised.

With over five decades of experience, more than 700 employees worldwide, three production sites and 16 filling lines, TUNAP is one of Europe's largest aerosol manufacturers.

A love for the product, individual advice, many years of experience and high flexibility make us the ideal partner for successful innovations and efficient solutions.

Learn more about our expertise and products at www.tunap.com. We look forward to meeting you!

Maximilian Buchner
Managing Director TUNAP GmbH & Co. KG.

L008 DPF Cleaner

Non-flammable, metal-free cleaner for removing carbon and ash deposits in diesel particulate filters. For restoring the absorption capacity of the particulate filter during service, without removing the particulate filter.

Properties

- ✓ Application is possible without dismantling the particulate filter
- ✓ Reduces the load state of the diesel particulate filter
- ✓ Removes carbon and ash deposits
- ✓ Non-flammable
- ✓ Ash-free and metal-free formula
- ✓ Residue-free evaporation

Application area

- ✓ For restoring the absorption capacity of the diesel particulate filter
- ✓ For signs of power loss and increased fuel consumption
- ✓ As a preventative measure in case of an unfavourable driving profile

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
DPF Cleaner	400 ml	1900094	Standard spray head	With extended nozzle	65 x 195 mm	more information

L015 DPF Flushing Liquid

Neutral, ash and metal-free solution for flushing after particulate filter cleaning. Evaporates without leaving residue. Guarantees a cleaner diesel particulate filter that can be regenerated again.

Properties

- ✓ Neutralises the DPF cleaner residue
- ✓ Guarantees a cleaner particulate filter that can be regenerated again
- ✓ Evaporates without leaving residue

Application area

- ✓ In the event of a loss of performance or interference caused by a diesel particulate filter overloaded with soot or ash
- ✓ For removing deposits containing carbon from oxidation catalytic converters
- ✓ Directly after cleaning the diesel particulate filter with the DPF cleaner L009 for flushing the particulate filter using a suitable spray system

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
DPF Flushing Liquid	500 ml	1900450	-	-	62 x 198 mm	more information

S056 SCR System Agent

System agent for regular use in SCR catalyst systems. This specially developed formulation reliably cleans crystal formation from urea dosing systems and SCR catalytic converters. This can prevent power losses or motor malfunctions.

Properties

- ✓ Protects urea dosing systems and SCR catalysts from crystal formation
- ✓ Cleans urea dosing systems and SCR catalysts with limited performance due to crystal formation
- ✓ Reduced foaming
- ✓ Suitable for use by the end customer

Application area

- ✓ For use in the event of crystal formation in urea dosing systems and SCR catalysts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
SCR System Agent	250 ml	1904027	-	Plastic straps	-	more information
SCR System Agent	5 l	1904029	-	-	-	more information

L009 DPF Cleaner

Non-flammable, metal-free special cleaner for cleaning off soot and ash deposits in the particulate filter. Evaporates without leaving residues. Due to unique wetting properties, the cleaner is able to dissolve and clean off soot and ash deposits from porous honeycomb structures such as those present in the particulate filter.

Properties

- ✓ Cleaning possible without dismantling the particulate filter
- ✓ Minimizes loading of the diesel particulate filter with ash or soot
- ✓ Neutral, ash- and metal-free formula
- ✓ Dissolves carbon deposits in particulate filters
- ✓ Non-flammable and metal-free
- ✓ Evaporates without residue

Application area

- ✓ For performance losses or malfunctions caused by overloaded diesel particulate filters
- ✓ To restore the absorption capacity of the loaded particulate filter
- ✓ As a preventive measure in the event of an unfavourable driving profile

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
DPF Cleaner	1 l	1904284	-	Plastic bottle	79 x 249 mm	more information

L004 Carburetor and Throttle Valve Cleaner

Highly effective active solvent specially developed for cleaning typical contamination and deposits around the air intake and throttle valves as well as carburetors (internally and externally).

Properties

- ✓ Breaks down resins, oily residues and carbon soiling in the intake area of petrol engines and on carburetors (inside and outside)
- ✓ A special spraying system delivers high mechanical cleaning performance
- ✓ 360° valve system for hard-to-reach places
- ✓ Improves engine performance
- ✓ Optimizes carburettor performance
- ✓ Suitable for engines with catalytic converter

Application area

- ✓ Cleaning throttle valves and throttle units of petrol engines
- ✓ Cleaning of carburetors (internally and externally)
- ✓ Rinsing of bore holes and nozzles
- ✓ For making moving parts, including idling actuators accessible

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Carburetor and Throttle Valve Cleaner	500 ml	1903894	Juno spray head	-	65 x 195 mm	more information

S002 Petrol Additive

Fuel additive for all petrol engines. For cleaning all components that come into contact with fuel. Optimises fuel injection and ensures even combustion.

Properties

- ✓ Ensures fuel quality
- ✓ Removes deposits and oxidation residue
- ✓ Extends the life of catalytic converters and the exhaust system after treatment by means of optimum combustion
- ✓ Optimises fuel injection and ensures even combustion

Application area

- ✓ For increased fuel consumption
- ✓ Preventive at every inspection
- ✓ Also recommended for petrol direct injection engines
- ✓ For varying fuel qualities

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Petrol Additive	300 ml	1903367	-	With snap-on closure With grommet	65 x 195 mm	more information

S003 Diesel Additive

Fuel additive for all diesel engines. For cleaning the fuel and injection system. Less fuel used due to accurate injection and atomisation of diesel fuel.

Properties

- ✓ Cleans the diesel engine fuel and injection system
- ✓ Less fuel used due to accurate injection and atomisation of diesel fuel
- ✓ Protects against corrosion

Application area

- ✓ For all passenger car diesel engines
- ✓ Preventive at every inspection
- ✓ For all diesel fuels, summer and winter diesel
- ✓ Suitable for modern common rail injection systems and pump/nozzle injection systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Diesel Additive	300 ml	1903369	-	With snap-on closure With grommet	52 x 161 mm	more information

S007 Winter Diesel System Agent

Special winter system agent with an agent combination to improve the cold start behaviour of diesel vehicles. The system agent has a positive effect on exhaust emission characteristics and combustion noise.

Properties

- ✓ Prevents transition problems from summer to winter diesel operation
- ✓ Keeps diesel fuel and heating oil in operation in extreme cold conditions
- ✓ Elevates the cetane number
- ✓ Prevents slushiness of the diesel fuel and the fuel lines and filters from becoming clogged

Application area

- ✓ All diesel engines in the automobile and systems sector
- ✓ To avoid cold start and cold running problems, even in extreme cold conditions
- ✓ For all heating oil tanks

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Winter Diesel System Agent	300 ml	1903373	-	With snap-on closure With grommet	52 x 161 mm	more information

S009 Petrol Additive

High-performance additive for all petrol engines. Cleans and protects all components that come into contact with fuel. Ensures technically safe and economical operation.

Properties

- ✓ Efficacy certified by TÜV Thüringen
- ✓ Proven to reduce NOx emissions
- ✓ Ensures fuel quality
- ✓ Removes deposits and oxidation residue from all components that come into contact with fuel
- ✓ Ensures the technically safe and economical function of the fuel system
- ✓ Extends the life of catalytic converters and the exhaust system after treatment by means of optimum combustion
- ✓ Less fuel is used thanks to precise fuel injection and even combustion

Application area

- ✓ For increased fuel consumption
- ✓ Preventive at every inspection
- ✓ If the fuel is suspected to be unsuitable
- ✓ When using E10 petrol
- ✓ Also recommended for direct injection engines

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Petrol Additive	300 ml	1903375	-	With snap-on closure With grommet	52 x 161 mm	more information

S011 Petrol Injection Cleaner

Special fuel additive for cleaning fuel and injection systems in petrol engines. Reduces increased fuel consumption thanks to precise fuel injection and atomisation.

Properties

- ✓ Protects the fuel system against corrosion
- ✓ Removes resin- and paint-like deposits from injection valves
- ✓ Improves fuel injection and atomisation
- ✓ Cleans the fuel system from tank to injector
- ✓ Ensures that the catalytic converter and the exhaust aftertreatment system function correctly

Application area

- ✓ For increased fuel consumption caused by poor fuel injection
- ✓ For increased emissions
- ✓ For all petrol injection engines
- ✓ For preventative use at every inspection

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Petrol Injection Cleaner	300 ml	1903379	-	With snap-on closure With grommet	52 x 161 mm	more information

S012 Diesel Injection Cleaner

Special fuel additive for cleaning fuel and injection systems in diesel engines. A clean injection system ensures low-soot and reduced particle combustion and reduces fuel consumption.

Properties

- ✓ Cleans the fuel system from the tank to the injector
- ✓ Improves fuel injection and atomisation
- ✓ Prevents diesel knocking and rough idling
- ✓ Reduces smoke formation, especially in the full load area

Application area

- ✓ For increased emissions values
- ✓ For increased soot formation and frequent particulate filter regeneration
- ✓ For reduced engine power
- ✓ Suitable for modern common rail injection systems and pump/nozzle injection systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Diesel Injection Cleaner	300 ml	1900093	-	With snap-on closure With grommet	52 x 161 mm	more information

S013 Petrol Stabiliser

Effective protection against ageing for petrol fuels during prolonged periods of storage. Protects against deposits, oxidation and corrosion.

Properties

- ✓ Prevents ageing of the fuel using effective antioxidants
- ✓ Provides excellent corrosion protection by binding and neutralising condensation water in the tank
- ✓ Effectively protects against ageing-related deposits using modern dispersants
- ✓ Improves starting behaviour using an octane booster

Application area

- ✓ For storing petrol-powered engines, including throughout winter
- ✓ For avoiding starting problems after prolonged periods of storage
- ✓ For use when storing in environments with wet climates or changing temperatures
- ✓ Suitable for lawn mowers, vintage cars, boats and chainsaws
- ✓ Suitable for all 2-stroke and 4-stroke engines

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Petrol Stabiliser	300 ml	1903381	Standard spray head	With snap-on closure With grommet	52 x 161 mm	more information

S014 Diesel Stabiliser

Innovative active ingredient for safeguarding general fuel quality for fuels from natural sources (bio-diesel, vegetable oil etc.). Reliably prevents deposits.

Properties

- ✓ Improves the stability of diesel fuels during storage using effective antioxidants
- ✓ Excellent oxidation protection even at elevated temperatures
- ✓ Reduces deposit formation
- ✓ Protects the system against corrosion
- ✓ Improves engine running and acceleration, especially at low ambient temperatures
- ✓ Prevents microbiological contamination
- ✓ Prevents oxidation-related deposits using antioxidants and dispersants

Application area

- ✓ For safeguarding biodiesel fuel quality
- ✓ For increasing fuel stability during storage with regard to oxidation and biological contamination
- ✓ Improves winter suitability
- ✓ For preventing damage to the injection system due to storage

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Diesel Stabiliser	300 ml	1903383	-	-	52 x 161 mm	more information

S015 All-in-one Stabiliser

Multifunctional fuel stabiliser for petrol and diesel engines. Cleans and protects the entire fuel system.

Properties

- ✓ Reduces storage costs and the risk of confusion
- ✓ Ideal for fleets with diesel and petrol engines
- ✓ Excellent cleaning effect
- ✓ Restores full performance
- ✓ Excellent protection against corrosion and dirt
- ✓ Wear protection additives can extend the life of fuel pumps, injectors etc
- ✓ Less fuel is used thanks to precise fuel injection and even combustion

Application area

- ✓ Additive for all types of fuel (petrol, diesel) to keep the entire fuel system clean
- ✓ For increased fuel consumption
- ✓ For high loads and wear (injection pumps and valves)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
All-in-one Stabiliser	300 ml	1900082	-	With snap-on closure	52 x 161 mm	more information

S016 LPG Stabiliser

Specially developed active substance concentrate for the petrol of gas-powered vehicles (LPG/CNG). Reduces valve wear (valve impact) and ensures the fuel's long-term stability.

Eigenschaften

- ✓ Prevents the ageing-related oxidation of petrol
- ✓ Prevents deposits in the fuel system thanks to the keep clean effect
- ✓ Minimises wear on valves and valve seats
- ✓ Corrosion protection for the entire fuel system
- ✓ Prevents the formation of residues

Application area

- ✓ For regular preventive addition to the petrol tank of vehicles with LPG powered engines
- ✓ In case of conversion to liquefied petroleum gas operation
- ✓ For all maintenance on the system
- ✓ For repairs on the system
- ✓ Also suitable for natural gas (CNG) vehicles (minimisation of valve wear only in regular operation in petrol mode)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
LPG Additive	300 ml	1900108	-	With snap-on closure	52 x 161 mm	more information

S043 Diesel Additive

High-performance additive for all diesel engines. Cleans and protects all components that come into contact with fuel. Ensures technically safe and economical operation.

Properties

- ✓ Efficacy certified by TÜV Thüringen
- ✓ Proven to reduce CO2 and HC emissions
- ✓ Cleans the diesel system
- ✓ Keeps the injection system clean
- ✓ Less fuel used due to accurate injection and atomisation of diesel fuel
- ✓ Protects against wear and corrosion
- ✓ Improves the lubricating effect of low-sulphur fuels

Application area

- ✓ For all passenger car diesel engines
- ✓ Preventive at every inspection
- ✓ For all diesel fuels, summer and winter diesel
- ✓ Suitable for modern common rail and pump/nozzle injection systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Diesel Additive	300 ml	1900091	-	With snap-on closure With grommet	52 x 161 mm	more information

S045 Cetane Booster

Fuel additive for all diesel engines. To improve the ignition behaviour of diesel fuels.

Properties

- ✓ Improves ignition capability and reduces fuel-related “knocking”
- ✓ Improves cold start behaviour
- ✓ Optimises combustion
- ✓ Reduces emissions
- ✓ Reduces fuel consumption

Application area

- ✓ For all diesel engines in the car and truck sector
- ✓ To improve the ignition behaviour of diesel fuels

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Cetane Booster	300 ml	1901049	-	With snap-on closure With grommet	52 x 161 mm	more information

S052 Octane Booster

Special additive for increasing the octane number.

Properties

- ✓ Increases the octane number — depending on the original fuel quality
- ✓ Reduces wear on valves and valve seats, which can extend the life of the engine
- ✓ Protects against engine ringing, knocking and reignition
- ✓ Increases engine performance

Application area

- ✓ If the fuel quality is fluctuating or poor
- ✓ In case of engine noise, such as engine rattling or knocking
- ✓ To improve the performance of vehicles in the high-performance sector

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Octane booster	300 ml	1903385	-	With snap-on closure With grommet	52 x 161 mm	more information

S054 DPF Cleaner and Regenerator

For cleaning and regeneration of the particulate filter for diesel engines. Lowers the burning temperature of the soot to restore the absorption capacity.

Properties

- ✓ Regenerates the DPF
- ✓ Soot formation is reduced
- ✓ Cleans without time-consuming removal
- ✓ Prevents loss of power and fuel consumption due to clogged particulate filters

Application area

- ✓ Suitable for all diesel engines with diesel particulate filter
- ✓ Particularly recommended for vehicles, which are mainly used in short-haul and urban traffic

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
DPF Cleaner and Regenerator	300 ml	1903387	-	With snap-on closure With grommet	52 x 161 mm	more information

S055 Combustion Chamber Cleaner

Removes fuel-related deposits from the combustion chamber and piston crowns. The cleaning chemical thereby reduces the risk of the engine being damaged by misfire (LSPI). Suitable for all (ethanol) petrol mixtures.

Properties

- ✓ Removes fuel-related deposits from the combustion chamber and piston crowns
- ✓ Reduces the risk of the engine being damaged by LSPI

Application area

- ✓ Direct injection petrol engines prone to LSPI (Low Speed Pre-Ignition)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Combustion Chamber Cleaner	200 ml	1903319	-	With snap-on closure With grommet	52 x 132 mm	more information

S004 Radiator Cleaner

Cleaning concentrate for quick and easy cleaning of the cooling and heating system. Dissolves and binds oily and greasy residues. Penetrates and eliminates slime and corrosion deposits.

Properties

- ✓ Cleaning the cooling and heating system
- ✓ Dissolves and binds oily and greasy residues
- ✓ Neutralizes lime residues
- ✓ Penetrates and eliminates slime and corrosion deposits
- ✓ Protects the new cooling lubricant from old contamination

Application area

- ✓ For all radiator repairs to eliminate reduced cooling performance
- ✓ In the case of deposits in the cooling circuit
- ✓ When changing the cooling lubricant
- ✓ For cleaning after engine repairs (oil in cooling system)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Radiator Cleaner	250 ml	1903371	-	Plastic straps	56 x 165 mm	more information

S005 Radiator Additive

Sealant for the cooling circuit. For securing the cooling circuit and combustion chamber against seal damage and for increasing operational safety.

Properties

- ✓ Protects the coolant circuit and combustion chamber against leaks
- ✓ Permanent sealing of hairline cracks and leaking areas
- ✓ Prevents seal transpiration and coolant loss

Application area

- ✓ For sweating head gaskets
- ✓ For leaking hose connections
- ✓ For hairline cracks in the radiator, cylinder head or engine block

Product Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Radiator Additive	300 ml	1900106	-	With snap-on closure	52 x 161 mm	more information

S001 Engine Oil Additive

Additive package for boosting the performance of engine oils with novel wear protection formula. Stabilises the lubricating film, even under extreme loads. Brings partially used engine oil active agents back to full fresh-oil performance.

Properties

- ✓ Ensures viscosity grade until the next oil change
- ✓ Increases the viscosity index
- ✓ Protects against increased oil consumption
- ✓ Reduces wear
- ✓ Improves oxidation protection and dirt dispersion

Application area

- ✓ Reduces friction resistance due to the OMC2 formula
- ✓ Unblocks resinified piston rings
- ✓ Protects against corrosion
- ✓ Reduces friction-related wear
- ✓ Improves the intake of engine components in the oil circuit

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Engine Oil Additive	300 ml	1903365	-	With snap-on closure	52 x 161 mm	more information

S008 ATF Additive

Special additive for automatic transmission fluids to protect all gearbox components.

Properties

- ✓ Excellent lubrication, even immediately after the start
- ✓ Very good wear protection of all transmission components
- ✓ Improves the quality of gearbox shifting

Application area

- ✓ Every time the automatic gear oil is changed
- ✓ To improve the life of the oil

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
ATF Additive	150 ml	1900083	-	With snap-on closure	52 x 161 mm	more information

S010 Interior Cleaner for Engines

Highly effective, low viscosity detergent-based cleaning concentrate. Breaks down deposits in the engine oil system and keeps them in a suspension. When used prior to every oil change, protects the new oil from previous contamination.

Properties

- ✓ Contains low-viscosity detergents to deliver outstanding cleaning results
- ✓ Removes oil sludge deposits from the engine oil system
- ✓ Protects the engine from being damaged as a result of blocked oil channels and bore holes
- ✓ Contains additives to lubricate components during the cleaning process
- ✓ Does not contain any chlorine, phosphates, nitrates or heavy metals
- ✓ Can be disposed of with the used oil

Application area

- ✓ For oil sludge deposits
- ✓ For loss of compression from the piston
- ✓ For hydraulic valve lifters knocking
- ✓ When changing oil to ensure that the new engine oil is not contaminated by any residues of used oil

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Interior Cleaner for Engines	400 ml	1903377	-	With snap-on closure	52 x 207 mm	more information

S020 Engine Oil Additive BN

Innovative engine and gearbox oil additive with nanostructural alpha-BN. Restores the surface of components in engines and gearboxes, thus compensating for increasing wear. Reduces noise and fuel consumption. Improves the corrosion protection provided by the oil.

Properties

- ✓ Improves the oil's lubricity proved through TÜV Thüringen
- ✓ Reduces noise and fuel consumption
- ✓ Improves the oil's effectiveness at protecting against corrosion and oxidation
- ✓ For use as dry and emergency lubrication
- ✓ Full effectiveness achieved after approx. 1000 km

Application area

- ✓ Engine oil and gearbox oil (not suitable for automatic gearboxes)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Engine Oil Additive BN	300 ml	1901047	-	With snap-on closure	52 x 161 mm	more information

S053 Engine Oil leak stop

Special additive package for engine oil. Reduces oil consumption and reduces the risk of oil loss.

Properties

- ✓ Regenerates engine seals and reduces oil consumption via piston rings and valve guides
- ✓ For reducing engine oil leaks caused by non-tight engine seals
- ✓ Protects against a decrease in the viscosity of the engine oil
- ✓ Avoids pollution and oil stains on roads and garages resulting from leaking oil

Application area

- ✓ When oil consumption is via piston rings and valve guides
- ✓ In case of engine oil leaks on diesel and petrol engines
- ✓ Preventive in severe operating conditions that can lead to a decrease in the viscosity of the engine oil
- ✓ Preventive for long engine oil change intervals

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Engine oil leak stop	300 ml	1901503	-	With snap-on closure	52 x 161 mm	more information

A016 Battery Terminal Protection

Permanent acid-resistant and temperature-resistant corrosion protection for battery clips and terminals.

Properties

- ✓ PH-neutral
- ✓ Acid-resistant
- ✓ Excellent corrosion protection
- ✓ Temperature-resistant from -40°C to +120°C
- ✓ Good material compatibility

Application area

- ✓ Battery terminals
- ✓ Pole terminals
- ✓ Plug connectors

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Battery Terminal Protection	150 ml	1900084		Standard spray head	52 x 105 mm	more information

A040 Electronic Spray

Highly effective, non-hygroscopic electrical fluid with active cleaning solvents in accordance with VDE standard. Neutral against elastomers, paints and electrically insulating materials.

Properties

- ✓ Long-term protection for the entire electrical
- ✓ Removes water and protects against moisture, dirt and corrosion
- ✓ Prevents leakage currents, electrical breakdowns and excessive transition resistances
- ✓ Protecting and insulating properties
- ✓ Has no effect on paints or plastics
- ✓ Protects copper metals and non-ferrous metals against oxidation

Application area

- ✓ During all inspections, maintenance and repair
- ✓ In the automotive sector, apply after every engine wash and during all work on the electrical system

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Electronic Spray	400 ml	1903758	Standard spray head	With extended nozzle	65 x 157 mm	more information

A062 Contact Spray

Cleaner for electrical contacts and sensitive electronic components. Removes grease, oil and dirt from metal contact surfaces.

Eigenschaften

- ✓ For the removal of grease, oil and dirt from metallic contact surfaces.
- ✓ Fast and residue-free evaporation.
- ✓ Suppresses moisture
- ✓ Also suitable for cleaning hard-to-reach areas.

Anwendungsgebiet

- ✓ Electrical contacts
- ✓ Battery terminals
- ✓ Bond earthing connectors
- ✓ Plug connectors etc.

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Contact Spray	400 ml	1901465	Standard spray head	With extended nozzle	65 x 157 mm	more information

A004 Penetrating Oil OMC₂

Premium mineral oil-based rust remover with excellent creep properties, durable corrosion protection and OMC₂ additives. For optimum friction value reduction by smoothing the metal surface (micro-flow smoothing).

Properties

- ✓ Optimum creeping properties ensure outstanding rust penetration and extensive rust removal
- ✓ OMC₂ technology for effective reduction in friction value by smoothing the metal surface
- ✓ Penetrates the finest cavities
- ✓ Reduces wear
- ✓ Very good corrosion protection by means of special anti-corrosion additives

Application area

- ✓ Rusty and oxidised screw connections
- ✓ Rust removal for cars, trucks, agricultural and construction machinery, aggregates and equipment

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Penetrating Oil OMC ₂	300 ml	1903189	Standard spray head	With extended nozzle	52 x 195 mm	more information
Penetrating Oil OMC ₂	300 ml	1903190	Standard spray head	With extended nozzle	57 x 164 mm	more information
Penetrating Oil OMC ₂	400 ml	1903191	Standard spray head	With extended nozzle	65 x 157 mm	more information

A005 Penetrating Oil MOS₂

Mineral oil-based rust remover with excellent creep properties, durable corrosion protection and excellent friction value reduction by means of MOS₂ solid lubricants.

Properties

- ✓ Optimum creeping properties ensure outstanding rust penetration and extensive rust removal
- ✓ Excellent reduction friction value by means of MOS₂ solid lubricants
- ✓ Good corrosion protection

Application area

- ✓ Rusty and oxidized screw connections
- ✓ Passenger cars, Trucks, Motorcycles
- ✓ Agricultural and construction machinery

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Penetrating Oil MOS ₂	400 ml	1903758	Standard spray head	With extended nozzle	65 x 157 mm	more information
Penetrating Oil MOS ₂	300 ml	1900314	Standard spray head	With extended nozzle	57 x 164 mm	more information

A014 Leak Detector

Bio-degradable testing foam for determining non-tight areas, micro-leaks and hairline cracks. Suitable for all pressurised areas on pipelines (compressed air, oxygen, combustible gases), pressurised containers, compressor systems, compressed air brake systems and welding units as well as non-tight areas on tyres and hoses. With DVGW approval.

Properties

- ✓ Approved by the German Technical and Scientific Association for Gas and Water (DVGW)(test certificate NG-5170BQ0463)
- ✓ Biodegradable
- ✓ Frost-proof down to -16°C

Application area

- ✓ Micro-leaks, hairline cracks and non-tight areas on pressurised components
- ✓ Pipes (compressed air, oxygen, combustion gases)
- ✓ Pressure vessels
- ✓ Compressors
- ✓ Compressed-air brake systems
- ✓ Welding devices
- ✓ Air-conditioning units

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Leak Detector	400 ml	1903321	Standard spray head	-	65 x 195 mm	more information

A023 Zinc spray

Silver-grey metal protective lacquer based on high-purity zinc metal powder. For superior corrosion protection and optimum look to metal surfaces. Tested in accordance with DIN 50021.

Properties

- ✓ Excellent corrosion protection
- ✓ Tested according to DIN 50021 salt spray test
- ✓ High zinc content
- ✓ High degree of resistance to running
- ✓ High abrasion resistance
- ✓ Dust-dry quickly (five minutes)
- ✓ Touch-dry quickly (ten minutes)

Application area

- ✓ Iron and steel surfaces
- ✓ Welding seams and damaged metal surfaces
- ✓ Bodywork parts
- ✓ Exhaust systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Zinc spray	400 ml	1900115	Standard spray head	-	65 x 157 mm	more information

A022 Zinc Spray

Matt grey metal protective lacquer based on high-purity zinc metal powder. For superior corrosion protection and optimum look to metal surfaces. Tested in accordance with DIN 50021.

Properties

- ✓ Excellent corrosion protection
- ✓ Tested according to DIN 50021 salt spray test
- ✓ High zinc content (99%)
- ✓ High degree of resistance to running
- ✓ High abrasion resistance
- ✓ Dust-dry quickly (five minutes)
- ✓ Touch-dry quickly (ten minutes)

Application area

- ✓ Iron and steel surfaces
- ✓ Weld seams and damaged metal surfaces
- ✓ Body parts
- ✓ Exhaust systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Zinc Spray	400 ml	1900116	Standard spray head	-	65 x 157 mm	more information

A041A Refrigerant Spray

For localised cooling down to -50°C within a few seconds. Versatile and without combustible propellant. Suitable for maintenance and adjustment tasks and for troubleshooting in the electrical area.

Properties

- ✓ Allows immediate cooling down to approx. -50°C
- ✓ State-of-the-art technology
- ✓ Electrically non-conductive
- ✓ Non-combustible in accordance with the German Ordinance on Hazardous Substances (GefStoffV)
- ✓ Not aggressive
- ✓ Low Global Warming Potential (GWP 100<20)
- ✓ Rapid, time-saving cooling of cold-start equipment

Application area

- ✓ Insertion of ball bearings, bushes, shafts etc, in the tightest clearances
- ✓ Removal of stubborn adhesive from chewing gum on stone, carpet, fabric and plastic

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Refrigerant Spray	400 ml	1900817	Juno spray head	-	65 x 157 mm	more information

A055 ICE Penetrating Oil

High-quality rust remover with ICE effect: Extreme cooling of screw connections combined with excellent creep effect.

Properties

- ✓ Cooling of the material surface down to -40°C by means of ICE effect
- ✓ Creates capillary cracks in the rust layer and enables better penetration of the active substance
- ✓ Corrosion protection by means of special protective additives
- ✓ Resin- and acid-free
- ✓ Compatible with rubber and seals

Application area

- ✓ Loosening of extremely rusted and oxidised screw connections
- ✓ Rust removal for cars, trucks, agricultural and construction machinery, aggregates and equipment

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
ICE Penetrating Oil	500 ml	1903225	Standard spray head	With extended nozzle	65 x 195 mm	more information
ICE Penetrating Oil	400 ml	1903249	Standard spray head	With extended nozzle	65 x 157 mm	more information

A057 Tyre Mounting Spray

Innovative wheel fitting gel spray for gentle installation of tyres. Special sliding substances significantly reduce friction between the tyre and rim. No visible residue after installation.

Properties

- ✓ Effective sliding properties, even with high-pressure loads
- ✓ Protects against damage during installation
- ✓ No visible residue after fitting
- ✓ Facilitates the assembly of run-flat tyres, low-profile tyres or UHP tyres

Application area

- ✓ For the assembly and disassembly of car tyres, truck tyres, run-flat tyres, motorcycle tyres and bicycle tyres

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Tyre Mounting Spray	400 ml	1903197	Standard spray head	-	57 x 207 mm	more information

A056 Penetrating Oil Maintenance

Rust-protection spray with effective rust stop effect. Improves appearance and protects against rust formation.

Properties

- ✓ 2-in-1 effect:
- ✓ Improved appearance: Parts look like new again
- ✓ Rust stop effect: Protects against rust formation
- ✓ Short flash-off time
- ✓ Fast and easy to use

Application area

- ✓ Steel
- ✓ Aluminium
- ✓ Non-ferrous metals

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Penetrating Oil Maintenance	400 ml	1903193	Standard spray head	-	57 x 207 mm	more information

A059 Penetrating Oil Aqueous

2-in-1 rust remover with an aqueous formulation, provides long-term rust protection for universal use on rusty surfaces and parts. Gently dissolves stubborn rust thanks to its chemical formulation (pH value 5 - neutral on skin).

Properties

- ✓ Excellent surface penetration due to highly degradable surfactants
- ✓ Lubricating ingredients to reduce friction
- ✓ pH value 5 - neutral on skin, does not attack metal surfaces
- ✓ Releases even extremely stubborn connections after long exposure

Application area

- ✓ For heavily rusted steel and iron, for example barbecue grills, lawn mowers, garden tools, hinges, screws, nuts
- ✓ Surfaces of steel and iron e.g. gates and fences, bicycle spokes, rusty spots on cars and caravans

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Penetrating Oil Aqueous	300 ml	1902858	Standard spray head	With extended nozzle	53 x 205 mm	more information
Penetrating Oil Aqueous	300 ml	1903293	-	Mitani spray head	53 x 205 mm	more information

A064 Spray Adhesive

Film-forming adhesive with high level of adhesion. Glues fabric, foam, leather, paper, cardboard, plastic coverings, vinyl, insulating mats and rubber. Precise application thanks to adjustable spray jet.

Properties

- ✓ Strong adhesion
- ✓ Quick drying
- ✓ Resistant to water and petrol
- ✓ Service temperature -30°C to +80°C, briefly (up to one hour) +100°C
- ✓ Even spray pattern

Application area

- ✓ Paper, cardboard
- ✓ Metal foils
- ✓ Leather
- ✓ Rubber
- ✓ Fabrics, felt, textiles
- ✓ Plastics
- ✓ Styrofoam

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Spray Adhesive	500 ml	1902206	Standard spray head	-	65 x 157 mm	more information

A002 Silicone Spray

High-quality silicone spray with highly lubricating separating and lubrication properties. Particularly user-friendly and secure handling. Reduces wear and eliminates unpleasant squeaking noises.

Properties

- ✓ Prevents bonding
- ✓ Extremely high degree of temperature resistance from -50°C to +250°C
- ✓ Colourless, non-discolouring
- ✓ Moisture repellent
- ✓ Excellent material compatibility
- ✓ Protects and nourishes surfaces
- ✓ Moisture-resistant, protects e.g. rubber parts from frost

Application area

- ✓ Moving parts on machines
- ✓ Plastics processing industry
- ✓ Vehicle manufacturing
- ✓ Printing and paper industry

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Silicone Spray	500 ml	1900001	Standard spray head	-	65 x 195 mm	more information
Silicone Spray	400 ml	1901229	Standard spray head	-	65 x 157 mm	more information
Silicone Spray	300 ml	1900826	Standard spray head	-	52 x 195 mm	more information

A003 Silicone Spray H1

Powerful, physiologically safe silicone spray with optimal sliding and lubricating properties. Suitable for use in the food processing industry (H1) due to high-quality silicone oils.

Properties

- ✓ Prevents bonding
- ✓ Reduces wear
- ✓ Extremely high degree of temperature resistance from -50°C to +250°C
- ✓ Colourless, non-discolouring
- ✓ Good material compatibility
- ✓ Protects and nourishes surfaces

Application area

- ✓ Moving parts on machines
- ✓ Material pairs such as plastic/plastic or plastic/metal
- ✓ Food processing industry
- ✓ Applications in which the use of products of physiologically harmful, mineral oil-based, critical additives and/or critical solvents is not desired

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Silicone Spray H1	500 ml	1900002	Juno spray head	-	65 x 195 mm	more information

A011 Cockpit Spray

Fully synthetic, high temperature-resistant, silicone-free cockpit care spray with anti-static effect. Particularly user-friendly and secure handling. Reduces wear and eliminates unpleasant squeaking noises.

Properties

- ✓ Non-dirty, non-greasy and fully synthetic care and lubricant film
- ✓ Silicone-free
- ✓ Eliminates creaking and squeaking noises
- ✓ High care performance and permanent protection
- ✓ Displaces water and moisture
- ✓ Prevents rubber freezing
- ✓ No resin or bonding effect

Application area

- ✓ plastic parts
- ✓ Slow-running seat belts
- ✓ Slow-running window guides
- ✓ Seals

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Cockpit-Spray	400 ml	1900012	Standard-spray-head	-	57 x 207 mm	more information

A019 Starting aid spray

For starting all types of engines, especially after prolonged periods of inactivity, low temperatures or wet weather conditions. Protects the engine and battery.

Properties

- ✓ Allows the engine to start up, even in low temperatures, in wet weather or after a long period of inactivity
- ✓ Very good wear and corrosion protection
- ✓ Prevents carburettor icing

Application area

- ✓ Vehicle engines (cars, trucks, buses, motorcycles)
- ✓ Lawnmowers, forklifts, tractors, boat engines, construction machinery, engine saws, pumps and other industrial equipment

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Starting aid spray	400 ml	1900018	Standard-spray-head	-	65 x 157 mm	more information

A013 Brake Care

Powerful-bond inspection and repair special lubricant for the entire brake, chassis and bodywork areas. Prevents contact corrosion. Long retention on the lubrication point thanks to good resistance to splash water and salt water

Properties

- ✓ Excellent resistance to pressure and temperatures
- ✓ Drip-free even at high temperatures
- ✓ Very strong adhesion, thus high degree of resistance to salt and spray water
- ✓ Excellent corrosion protection
- ✓ Prevents contact corrosion
- ✓ Prevents brakes squeaking
- ✓ Outstanding damping properties

Application area

- ✓ When repairing disc and drum brakes
- ✓ For keeping various door catch mechanisms, such as arrestors or rollers, running smoothly
- ✓ Fittings in the high-temperature area, such as on exhaust systems

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Care	200 ml	1900013	-	With brush applicator	52 x 161 mm	more information

A030 Interior and Air Conditioning Spray

Fast and efficient odour elimination in the vehicle interior. No residues.

Properties

- ✓ Reliably eliminates unpleasant odours in the vehicle interior
- ✓ Leaves behind a fresh, pleasant lemon fragrance
- ✓ Fine active agent distribution — ideal for hard-to-reach areas
- ✓ Leaves no residue behind

Application area

- ✓ Vehicles with air-conditioning units or ventilation systems
- ✓ Used car refurbishment

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Used car refurbishment	100 ml	1903612	Vulkan spray head	-	45 x 105 mm	more information

A035 Waterproofing Spray

Universal waterproofing spray. Neutral in colour and powerful. For leather, synthetic and outdoor items such as garden furniture and awnings.

Properties

- ✓ Protection from moisture, stains and UV rays
- ✓ Keeps the fabric supple and breathable
- ✓ Free of fluorine compounds such as PFOS or PFOA
- ✓ Excellent material compatibility with textiles, leather, paints, rubber, sealing materials, PVC and acrylic glass.

Application area

- ✓ Leather items such as smooth and rough leather shoes
- ✓ Synthetic materials such as sportswear, tents, backpacks
- ✓ Garden furniture
- ✓ Convertible roofs and awnings made of fabric or plastic

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Waterproofing Spray	400 ml	1900024	Standard-spray-head	-	57 x 207 mm	more information
Waterproofing Spray	400 ml	1901310	Standard-spray-head	-	57 x 207 mm	more information
Waterproofing Spray	300 ml	1900916	Standard-spray-head	-	52 x 195 mm	more information

A036 Tyre Foam

Tyre foam for optical treatment of tyres that are under strain. Cleans, maintains and protects the tyre walls. The special anti-static effect slows down resoiling.

Properties

- ✓ The refreshed colour improves appearance
- ✓ Semi-gloss effect
- ✓ Protects against resoiling
- ✓ Cleans and maintains the tyre
- ✓ Suitable for all types of tyre

Application area

- ✓ Heavily used vehicle tyres
- ✓ Rubber parts and plastic parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Tyre Foam	500 ml	1902366	-	Standard-spray-head	65 x 195 mm	more information

A038 De-Icer

Alcohol-based de-icer with liquid gas for fast and effective de-icing of ice and frost. Delays the formation of ice.

Properties

- ✓ Very good de-icing
- ✓ Excellent material compatibility
- ✓ Protects plastic surfaces and windscreen wipers
- ✓ Zuverlässiges Sprühverhalten bis -20°C
- ✓ Delays the formation of ice

Anwendungsgebiet

- ✓ Frozen door seals
- ✓ Iced up windows
- ✓ Iced up locks

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
De-Icer	400 ml	1900027	Standard-spray-head	-	65 x 157 mm	more information
De-Icer	500 ml	1900827	Standard-spray-head	-	65 x 195 mm	more information

A046 Stainless Steel Care Agent A7

Care spray for stainless steel surfaces in the food and drinks industry. Cleans and protects against corrosion.

Properties

- ✓ Cleans, protects and maintains at the same time
- ✓ Protects against corrosion
- ✓ Good reduction in friction
- ✓ Not harmful to health
- ✓ NSF A7 (or H1) sub-registration possible depending on specification

Anwendungsgebiet

- ✓ For the care and maintenance of stainless steel in breweries, bakeries, meat factories, industrial kitchens and hospitals
- ✓ Corrosion protection throughout the food industry

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stainless Steel Care Agent A7	500 ml	1900096	Standard-spray-head	-	45 x 195 mm	more information

L001 Brake Cleaner

Cleaner for maintenance, repair and assembly work in the skilled trade sector. Removes and dissolves oily dirt, grease and silicone on brake discs, clutch parts, gearbox parts, cables, tool parts etc. Abrasive dust is bound and washed away.

Properties

- ✓ Removes oil, grease, resin and silicone
- ✓ Binds abrasion dust for it to float away
- ✓ Dries quickly
- ✓ High spray pressure for optimised cleaning effect even in hard-to-reach areas

Application area

- ✓ Maintenance
- ✓ Repair
- ✓ Installation
- ✓ Grease deposits and resin residue

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Cleaner	200 ml	1903417				more information
Brake Cleaner	500 ml	1900072	Standard-spray-head	With extended nozzle	65 x 195 mm	more information
Brake Cleaner	600 ml	1900244	Standard-spray-head	With extended nozzle	65 x 240 mm	more information
Brake Cleaner	5 l	1903322				more information
Brake Cleaner	60 l	1901041				more information

L002 Industry Clean

High-performance industrial cleaner. For maintenance, repairs and assembly work.

Properties

- ✓ Very strong cleaning and dissolving effect, even with stubborn dirt
- ✓ For removing protective preservatives
- ✓ Excellent material compatibility
- ✓ Unpainted surfaces are not attacked
- ✓ Low evaporation rate
- ✓ Hydrocarbon alcohol-based with terpenes
- ✓ Acetone-free

Application area

- ✓ Adhesive tape residue
- ✓ Highlighter colours
- ✓ Machine parts and plastic parts
- ✓ Metallic surfaces
- ✓ Brake discs

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Industrieclean	500 ml	1901043	Standard-spray-head	With extended nozzle	65 x 195 mm	more information

L002A Industry Cleaner (without terpene)

High-performance, hydrocarbon alcohol-based cleaner without terpenes. Ideal for industrial areas. Removes protective preservatives, adhesives and heavy soiling.

Eigenschaften

- ✓ Very strong cleaning and dissolving effect, even with stubborn dirt
- ✓ Excellent material compatibility, as it is acetone-free
- ✓ Unpainted surfaces are not attacked
- ✓ Low evaporation rate
- ✓ No allergenic terpenes
- ✓ Pre-cleaning for bonding

Anwendungsgebiet

- ✓ Adhesive tape residue
- ✓ Highlighter colours
- ✓ Protection and preservation
- ✓ Contamination caused by grease and oil

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Industry Cleaner (without terpene)	500 ml	1901191	Standard-spray-head	With extended nozzle	65 x 195 mm	more information

L006 Brake Cleaner IPA

Volatile hydrocarbon- and isopropanol-based quick degreaser and brake cleaner. Contains no chlorinated or halogenated hydrocarbons.

Eigenschaften

- ✓ Thoroughly cleans oils and fats
- ✓ Low evaporation rate
- ✓ Cleans without staining

Anwendungsgebiet

- ✓ For removing oily or resinous residues during maintenance or repair work and before assembly
- ✓ For removing and activating parts before gluing and painting
- ✓ Removes oils and residues, synthetic oils and silicone residues

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Cleaner IPA	500 ml	1903114	Standard-spray-head	With extended nozzle	65 x 195 mm	more information

L007 Universal Cleaner K1

Universal cleaner and quick degreaser based on hydrocarbon-alcohol for use as a cleaner and degreaser outside production areas in the food industry.

Properties

- ✓ NSF K1 Sub-Registrierung möglich
- ✓ Excellent cleaning effect on oils and greases
- ✓ Cleans and degreases without any residue

Application area

- ✓ For cleaning in physiologically sensitive areas
- ✓ All applications where the use of light and highly flammable products is not desired

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Universal cleaner K1	500 ml	1900079	S7 spray head	-	65 x 195 mm	more information

L011 Brake Cleaner Plus

Cleaner for maintenance, repair and assembly work in the skilled trade sector. Removes and dissolves oily dirt, grease and silicone on brake discs, clutch parts, gearbox parts, cables, tool parts etc. Abrasive dust is bound and washed away.

Properties

- ✓ Removes oil, grease, resin and silicone
- ✓ Removes polar pollutants such as salts, metals and dust
- ✓ Effective against lacquer-like pollutants and residues that contain silicone
- ✓ Binds and washes away abrasive dust
- ✓ Dries quickly
- ✓ High spray pressure for optimised cleaning effect even in hard-to-reach areas

Application area

- ✓ Maintenance
- ✓ Repair
- ✓ Assembly
- ✓ Grease and resin deposits

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Cleaner Plus	500 ml	1903997	Standard-spray-head	With extended nozzle	65 x 195 mm	more information
Brake Cleaner Plus	5 l	1904005	-	-	-	more information
Brake Cleaner Plus	20 l	1904017	-	-	-	more information
Brake Cleaner Plus	60 l	1904018	-	-	-	more information

A001 Glass and Interior Cleaner

Cleaner for plastic, glass and fabric surfaces. Effectively removes dirt and dust and leaves a pleasant lemon fragrance.

Properties

- ✓ Streak-free cleaning thanks to special tensides
- ✓ Breaks down road dust and insect contamination
- ✓ Breaks down nicotine deposits and silicone residue
- ✓ Cost-effective to use
- ✓ Good material compatibility with paints, rubber and plastics

Application area

- ✓ Plastic surfaces
- ✓ Upholstery
- ✓ Glass surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Glass and Interior Cleaner	500 ml	1900000	Standard-spray-head	-	65 x 195 mm	more information
Glass and Interior Cleaner	400 ml	1901144	Standard-spray-head	-	65 x 157 mm	more information
Glass and Interior Cleaner	400 ml	1901944	Standard-spray-head	-	57 x 207 mm	more information
Glass and Interior Cleaner	300 ml	1902221	Standard-spray-head	-	52 x 195 mm	

A043 Upholstery Foam Cleaner

Aqueous foam upholstery cleaner for stubborn stains, with excellent cleaning effect. Suitable for universal use. Phosphate-free.

Properties

- ✓ Excellent cleaning effect on stubborn stains such as coffee, ketchup, cola etc.
- ✓ Cleans gently and refreshes the colour
- ✓ Leaves no visible residue
- ✓ Removes odours and leaves a pleasant fragrance
- ✓ Suitable for a wide variety of types of upholstery, such as upholstery fabrics, velour upholstery, headliner and vinyl trim

Application area

- ✓ Velour upholstery in the home
- ✓ All standard types of upholstery in the car
- ✓ Headliners
- ✓ Vinyl trims

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Upholstery Foam Cleaner	300 ml	1903102	Vulkan spray head	-	52 x 195 mm	more information
Upholstery Foam Cleaner	400 ml	1903104	Vulkan spray head	-	57 x 207 mm	more information

A066 Multifunction Foam Cleaner A1

Multifunctional foam cleaner for streak- and residue-free cleaning of glass, textile and plastic surfaces, also for use in the food industry

Properties

- ✓ NSF A1 sub-registration possible
- ✓ Cleans without leaving streaks or residue
- ✓ Good material compatibility with paints, rubber and plastics

Application area

- ✓ Plastic surfaces
- ✓ Upholstery
- ✓ Glass surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multifunction Foam Cleaner A1	500 ml	1903464	Standard-spray-head	-	65 x 195 mm	more information

S021 Rim Cleaner

For gentle removal of stubborn dirt such as brake dust and other road dirt from steel and aluminium rims.

Properties

- ✓ Excellent cleaning performance
- ✓ Good material compatibility with all materials used on rims
- ✓ No corrosion on wheel bolts and steel parts

Application area

- ✓ For removing dirt from aluminium rims, steel rims and plastic wheel caps

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Rim Cleaner	500 ml	1901045	Trigger spray head	Plastic straps	-	more information

L010 Workshop Cleaner

Biodegradable, aqueous, multifunctional cleaner for vehicles, buildings and machinery.

Properties

- ✓ Excellent cleaning effect on grease, oil, dirt and dirt deposits
- ✓ Mechanical processing is not needed in most cases
- ✓ Readily biodegradable
- ✓ Suitable for cleaning machines thanks to anti-foaming agent

Application area

- ✓ Buildings and facilities
- ✓ Floors & walls
- ✓ Vehicle interior and exterior
- ✓ Machine tools
- ✓ Application tools

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Workshop Cleaner	20 l	1901044	-	-	-	more information

A010 White Spray Grease

Mineral oil-based, versatile white long-term grease with excellent material compatibility. For long-term lubrication and protection against rust and oxidation.

Properties

- ✓ Free from silicone, resin and acids
- ✓ Very good sealing properties
- ✓ Good oxidation stability
- ✓ Excellent corrosion protection
- ✓ Excellent material compatibility
- ✓ Resistant to splashes and salt water
- ✓ Temperature range: -15°C to +130°C; Briefly: +200°C

Application area

- ✓ Maintenance and inspection work, e.g. hinges, joints, sliding rails.
- ✓ Wherever an oil spray is not long-lasting enough

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
White Spray Grease	300 ml	1900011	Standard-spray-head	With extended nozzle	57 x 164 mm	more information
White Spray Grease	400 ml	1901057	Standard-spray-head	With extended nozzle	65 x 157 mm	more information

A017 Adhesive Lubricating Grease Spray

Multifunctional, free-flowing high-performance lubricant with adhesive quality. The high pressure-resistant lubricating film reliably protects against wear and corrosion. The lubricating film does not spin off, even on turning or rotating parts.

Properties

- ✓ Excellent adhesive effect ensures resistance to external influences
- ✓ Good creep effect even in difficult-to-reach areas
- ✓ Lubrication reliability thanks to anti-wear additives
- ✓ Resistant to high pressures and temperatures, spray and sea water
- ✓ Very good cushioning properties

Application area

- ✓ For repairing spring struts, stabilisers, bell cranks, swivel hub locking devices, gear, clutch and brake linkages
- ✓ Corrosion protection for brake and fuel lines
- ✓ Movable metallic components such as joints, hinges, sliding parts, locking wedges etc.
- ✓ Lubrication of door hinges

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Adhesive Lubricating Grease Spray	300 ml	1900214	S7 spray head	-	57 x 164 mm	more information
Adhesive Lubricating Grease Spray	400 ml	1901295	S7 spray head	-	65 x 157 mm	more information
Adhesive Lubricating Grease Spray	500 ml	1901095	S7 spray head	-	65 x 195 mm	more information

A021 Grease Spray

Mineral oil-based, universal spray grease. Excellent corrosion and oxidation protection and high level of creep effect.

Properties

- ✓ Very good corrosion and oxidation protection
- ✓ High creep effect
- ✓ Excellent reduction in friction value
- ✓ Quick drying off
- ✓ No resin deposits or bonding
- ✓ Resistant to cold and hot water
- ✓ Good compatibility with all standard sealing materials

Application area

- ✓ Inspection and maintenance
- ✓ Movable metallic components such as joints, hinges, sliding parts, locking wedges, locking cylinders, locks, sliding rails etc.

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Grease Spray	400 ml	1900869	Standard-spray-head	With extended nozzle	65 x 157 mm	more information

A033 Silicone Spray Grease H1

Synthetic active spray for rubber parts and plastic parts. Prevents unwanted noise in contact between plastic and metal and rubber. Creates a water-repellent protective layer and reduces friction wear. Resistant to high and low temperatures.

Properties

- ✓ Prevents unwanted noise in contact with plastic between plastic and metal and rubber
- ✓ Reduces friction wear
- ✓ Temperaturbeständig von -40°C bis +200°C
- ✓ Especially high adhesion on plastics and rubber
- ✓ Highly durable and water-repellent protective layer
- ✓ NSF H1 sub-registration possible

Application area

- ✓ Sliding doors
- ✓ Sliding roof guides
- ✓ Deflection pulleys
- ✓ Slide rails
- ✓ Door seals

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Silicone Spray Grease H1	300 ml	1900022	Juno spray head	-	52 x 195 mm	more information

A034 High Performance Spray Grease H1

High-quality synthetic high-performance grease spray with excellent protection and lubrication, as well as outstanding corrosion protection. Ideal long-term care for all moving components.

Properties

- ✓ Extremely good reduction in friction and wear values
- ✓ Excellent corrosion protection
- ✓ Weather resistant
- ✓ Resistant to cold and hot water
- ✓ Thermally stable from -40°C to +200°C
- ✓ NSF H1 sub-registration possible

Application area

- ✓ Components such as chains, ropes, lifting, joints, hinges, linkages, sliding points, guides etc.
- ✓ Moulds and tools

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
High Performance Spray Grease H1	400 ml	1901309	-	Standard-spray-head	65 x 157 mm	more information

A007 Multifunction Oil

Mineral oil-based, universal multifunction oil for five areas of application: Corrosion protection, lubrication, cleaning, rust removal and contact spray.

Properties

- ✓ Excellent rust and corrosion penetration for effective rust removal
- ✓ Excellent lubricating properties
- ✓ Corrosion creep of dirt, grease and oil residue
- ✓ Produces a thin, viscous protective film that protects against moisture even on the smallest irregularities
- ✓ Suppresses water and moisture

Application area

- ✓ Loosens rusty bolts, pipe fittings, screws, nuts, joints, Bowden cables, shafts, locks, etc
- ✓ Lubricates closures, hinges, bushes, chains and door locks
- ✓ Cleans and maintains plastic and metal parts
- ✓ Prevents corrosion on metals and electrical components, cable connections, relays, plugs, couplings, etc

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multifunction Oil	400 ml	1900923	Standard-spray-head	With extended nozzle	52 x 161 mm	more information
Multifunction Oil	300 ml	1903421	Standard-spray-head	With extended nozzle	52 x 161 mm	more information

A008 Multifunction Oil H1

Physiologically safe synthetic oil with multifunctional additive combination. Suitable for use in the food industry and for all applications in which the use of products of physiologically harmful, mineral oil-based, critical additives and/or critical solvents is not desired.

Properties

- ✓ NSF H1 sub-registration possible
- ✓ Loosens, lubricates, maintains and protects
- ✓ Penetrates rust and corrosion to provide effective rust removal
- ✓ Protects against corrosion
- ✓ Infiltrating of dirt, grease and oil residue
- ✓ Produces a thin, viscous protective film that protects against moisture
- ✓ Displaces water

Application area

- ✓ Bolts, screws, nuts, pipe fittings, joints, locks etc
- ✓ Closures, hinges, bushes, chains
- ✓ Plastic parts and metal parts
- ✓ Electrical contacts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multifunction Oil H1	400 ml	1903483	S7 spray head	-	65 x 157 mm	more information

A018 Synthetic Chain Oil

Fully synthetic chain and cable oil with high-quality corrosion and wear protection additives. Suitable for high and low temperatures. Reliable protection of components, even under extreme loads.

Properties

- ✓ Reliable protection against corrosion
- ✓ Excellent reduction in friction value
- ✓ Long service life
- ✓ Excellent creepage and penetration capacity
- ✓ No resin deposits, coking or burning on
- ✓ High pressure rating, good adhesive properties
- ✓ Temperature stability to approx. +200°

Application area

- ✓ Drive chains and transport chains
- ✓ Ropes
- ✓ Spindles
- ✓ Cogs
- ✓ Cylinders
- ✓ Other drive units

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Synthetic Chain Oil	400 ml	1900017	Juno spray head	-	65 x 157 mm	more information

A047 Multiperfect High Performance Oil

Mineral oil-based multifunction oil with special additives for maximum protection against corrosion, oxidation and wear and protection for non-ferrous metals.

Properties

- ✓ Excellent rust penetration and high degree of rust removal due to optimal creep properties
- ✓ Very good against wear and oxidation
- ✓ Excellent water displacement
- ✓ Excellent corrosion protection

Application area

- ✓ Loosens rusted bolts, pipe fittings, screws, bolts, nuts, joints, Bowden cables, shafts, locks
- ✓ Lubricates closures, hinges, bushes, chains and door locks
- ✓ Cleans and maintains plastic and metal parts
- ✓ Prevents corrosion on metal and electrical assemblies, cable connections, relays, connectors, couplings

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multiperfect High Performance Oil	400 ml	1903613	Standard spray head	With extended nozzle	52 x 157 mm	more information
Multiperfect High Performance Oil	500 ml	1903615	Standard spray head	With extended nozzle	65 x 195 mm	more information

A015 Brake Protection Paste

Metal-free inspection and repair special lubricant for the entire brake, chassis and bodywork areas. Prevents contact corrosion. Long retention on the lubrication point thanks to good resistance to splash water and salt water.

Properties

- ✓ Effective corrosion protection
- ✓ Excellent resistance to pressure and temperatures
- ✓ Protects against fusing
- ✓ Resistant to external influences such as water spray and salt water
- ✓ Very good damping properties
- ✓ Metal-free
- ✓ For preventing run-in damage, friction and wear on bearings, sliding points, screw and plug connections

Application area

- ✓ ABS braking systems
- ✓ Assembly work on machines

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Protection Paste	400 ml	1900015	Standard spray head	-	65 x 157 mm	more information

A048 Aluminium Paste

Synthetic silver-coloured multi-purpose grease with aluminium pigments.

Properties

- ✓ Very high pressure rating and excellent separating effect
- ✓ Separating effect even at extreme temperatures
- ✓ Water resistant
- ✓ Good protection against corrosion, oxidation and scaling
- ✓ No oil carbon formation at high temperatures
- ✓ Temperature range: -40°C to +250°C (thin film) to +1100°C (dry)

Application area

- ✓ For basic and thin-film lubrication
- ✓ For preventing friction and wear
- ✓ For use as parting lubricant for reliable, trouble-free disassembly
- ✓ For protecting screw connections and achieving even friction

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Aluminium paste	400 ml	1900243	Standard spray head	-	65 x 157 mm	more information

A049 Copper paste

Synthetic multi-purpose grease with copper pigments.

Properties

- ✓ Very high pressure rating and excellent separating effect
- ✓ Separating effect even at extreme temperatures
- ✓ Water resistant
- ✓ Good protection against corrosion, oxidation and scaling
- ✓ No oil carbon formation at high temperatures
- ✓ Temperature range: -35°C to +250°C (thin film) to +1100°C (dry)

Application area

- ✓ For basic and thin-film lubrication
- ✓ For preventing friction and wear
- ✓ For use as parting lubricant for reliable, trouble-free disassembly
- ✓ For protecting screw connections and achieving even friction

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Copper paste	400 ml	1900124	Standard spray head	-	65 x 157 mm	more information

A009 Dry Chain Lube

Semi-synthetic, bright, highly adhesive special lubricant with special additives to prevent ageing, corrosion and wear. The high content of PTFE solids ensures grease-free sealing of the entire surface.

Properties

- ✓ Optimum friction value reduction by means of special additives
- ✓ Excellent adhesive properties, no dripping and shearing
- ✓ Excellent creep age and penetration capacity
- ✓ Wax-like dry film, therefore no dirt will stick
- ✓ Water-repellent and thus protects against corrosion
- ✓ Outstanding cushioning properties
- ✓ Extremely UV resistant

Application area

- ✓ Chains, sliding surfaces, splines, cardan and universal joints, spindles, guides and gears

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Dry Chain Lube	400 ml	1903588	Standard spray head	With extended nozzle	65 x 157 mm	more information
Dry Chain Lube	400 ml	1903587	S7 spray head	-		more information

A050 Ceramic Paste

Synthetic grey multi-purpose paste with ceramic pigments. Long-term lubrication for screw connections, resistant to high temperatures.

Properties

- ✓ Very high pressure rating and excellent separating effect
- ✓ More temperature resistant in the separating effect than pastes that contain metals
- ✓ Water resistant
- ✓ Excellent protection against corrosion, oxidation and scaling
- ✓ Keeps friction and wear to a minimum
- ✓ No oil carbon formation at high temperatures
- ✓ Temperature range: -30°C to +1400°C

Application area

- ✓ Protection of screw connections
- ✓ Basic and thin-film lubrication
- ✓ Separation lubrication for reliable, trouble-free disassembly
- ✓ For even friction values

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Ceramic Paste	400 ml	1900444	Standard spray head	-	65 x 157 mm	more information

A028 Bonded Coating White

Quick-drying, oil-free and touchproof sliding lacquer with bright PTFE solid lubricants.

Properties

- ✓ Application with absolutely no grease and oil
- ✓ High pressure rating
- ✓ Very good reduction in friction and wear values
- ✓ Extremely clean application, as it does not bind to dust
- ✓ Sliding surface with excellent adhesion and high load carrying capacity
- ✓ Fast-drying
- ✓ Extremely temperature resistant: -180°C to +250°C

Application area

- ✓ As a single and basic lubricant for guides, sliding surfaces, conveyor belts, transport rollers etc.
- ✓ As a release agent and for coating components under load
- ✓ Wherever lubrication containing oil and grease is not desired

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Bonded Coating White	400 ml	1900100	Standard spray head	-	65 x 157 mm	more information

A029 Bonded Coating Dark

Quick-drying, oil-free and touchproof sliding lacquer with dark MOS₂ solid-state lubricants.

Properties

- ✓ Application with absolutely no grease and oil
- ✓ High pressure rating
- ✓ Very good reduction in friction and wear values
- ✓ Extremely clean application, as it does not bind to dust
- ✓ Sliding surface with excellent adhesion and high load carrying capacity
- ✓ Fast-drying
- ✓ Extremely temperature-resistant from -180°C to +400°C

Application area

- ✓ As a single and basic lubricant for guides, sliding surfaces, conveyor belts, transport rollers etc.
- ✓ As a release agent and for coating components under load
- ✓ Wherever lubrication containing oil and grease is not desired

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Gleitlack Dunkel	400 ml	1900099	Standard spray head	-	65 x 157 mm	more information

A032 PTFE-Spray

Oil-free, grease-free, PTFE-dispersion based release and lubricant spray. Ideal for reducing friction on different materials.

Properties

- ✓ Reduces wear and friction
- ✓ Good adhesion properties on virtually all materials
- ✓ Water-repellent
- ✓ Clean
- ✓ Temperature-resistant from -180°C to +250°C

Application area

- ✓ Metal
- ✓ Plastic
- ✓ Wood
- ✓ Rubber
- ✓ Sliding surfaces
- ✓ Conveyor belts
- ✓ Transport rollers

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
PTFE-Spray	300 ml	1900021	Standard spray head	With extended nozzle	57 x 164 mm	more information

Sustainability

- ✓ Cleaning
- ✓ Care
- ✓ Maintenance
- ✓ Lubrication
- ✓ Disinfection

E001 Glass and Interior Cleaner

Solvent-free cleaner with special tensides for plastic, glass and fabric surfaces. Effectively removes dirt, dust and insect residues without leaving streaks.

Properties

- ✓ Streak-free cleaning thanks to special tensides
- ✓ Breaks down road dust and insect contamination
- ✓ Breaks down nicotine deposits and silicone residue
- ✓ Cost-effective to use
- ✓ Good material tolerance with paints, rubber and plastics

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ NSF A1 sub-registration possible.

Application area

- ✓ Plastic surfaces
- ✓ Upholstery
- ✓ Glass surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Glass and Interior Cleaner	500 ml	1903797	Standard spray head	-	65 x 195 mm	more information

E003 Universal Cleaner Premium

Cleaner with reduced physiological load for maintenance, repair and assembly work in the skilled trade sector. Removes and dissolves oily dirt, grease and silicone on brake discs, clutch parts, gearbox parts, cables, tool parts etc.

Properties

- ✓ Removes oil, grease, resin and silicone
- ✓ Binds and washes away abrasion dust
- ✓ High spray pressure for optimised cleaning, even in hard-to-reach areas
- ✓ Reduced risk and consequences of fire
- ✓ Lower explosion limit >1.5 vol.%

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Compressed CO2 propellant gas
- ✓ NSF K1 sub-registration possible

Application area

- ✓ For maintenance, repair and installation
- ✓ For repairing couplings
- ✓ Cleaning heavily soiled or oily/greasy assembly parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Universal Cleaner Premium	500 ml	1903783	Standard spray head	With extended nozzle	65 x 195 mm	more information

E002 Multipurpose Foam Cleaner A1

Universal foam cleaner for cleaning glass, textile and plastic surfaces without leaving streaks and residues. Effective against stubborn dirt, also for use in the food preparation industry.

Properties

- ✓ Cleans without leaving streaks or residues
- ✓ Removes dust and dirt
- ✓ Strong cleaning performance, even on stubborn dirt
- ✓ Good material tolerance with paints, rubber and plastics

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ NSF A1 sub-registration possible

Application area

- ✓ Plastic surfaces
- ✓ Upholstery
- ✓ Glass surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multipurpose Foam Cleaner	500 ml	1903798	Standard spray head	-	65 x 195 mm	more information

E004 Universal Cleaner

Universal cleaner and quick degreaser for cleaning during maintenance, repair and assembly work, also in physiologically and ecologically sensitive areas. Loosens and removes dirt, grease and silicone.

Properties

- ✓ Removes oil, grease, resin and silicone
- ✓ Binds and washes away abrasion dust
- ✓ Mean evaporation rate enables extended exposure time

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Compressed CO2 propellant gas
- ✓ NSF K1 sub-registration possible

Application area

- ✓ Cleaning in physiologically and ecologically sensitive areas
- ✓ For maintenance, repair and assembly work involving stubborn grease residues

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Universal Cleaner	500 ml	1903802	Standard spray head	With extended nozzle	65 x 157 mm	more information

E016 Cockpit Spray

Silicone-free and solvent-free cockpit care spray with anti-static effect. Particularly user-friendly and secure handling. Reduces wear and eliminates unpleasant squeaking noises.

Properties

- ✓ Non-contaminating and non-greasy care and lubricant film
- ✓ Silicone-free
- ✓ Eliminates creaking and squeaking noises
- ✓ Good maintenance and permanent protection
- ✓ Displaces water and moisture
- ✓ Prevents rubber freezing
- ✓ No resin or bonding effect

Application area

- ✓ Plastic parts
- ✓ Sticking seat belts
- ✓ Sticking window guides
- ✓ Seals

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Cockpit Spray	400 ml	1903260	S7 spray head	-	57 x 207 mm	more information

E018 Impregnation Spray

Multi-functional, fluorine-free impregnation spray protects textiles and leather. The effective formula protects the fabric from moisture and dirt without using environmentally harmful fluorine compounds.

Properties

- ✓ Excellent protection against UV radiation, moisture and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Colour-neutral
- ✓ Perfect for multi-functional use
- ✓ Excellent material tolerance with textiles, leather, paints, rubber and sealing materials

Application area

- ✓ Smooth and rough leather
- ✓ Synthetic materials
- ✓ Shoes, jackets, sportswear, Outdoor items such as tents and backpacks
- ✓ Convertible hoods
- ✓ Awnings

ECO features

- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Approved particle size distribution

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Spray	400 ml	1903807	Standard spray head	With extended nozzle	57 x 207 mm	more information

E017 Stainless Steel Care Agent A7

Care spray for stainless steel surfaces in the food and drinks industry. Cleans and protects against corrosion.

Properties

- ✓ Cleans, protects and maintains at the same time
- ✓ Protects against corrosion
- ✓ Good reduction in friction coefficient
- ✓ Physiologically safe

Application area

- ✓ For the care and maintenance of stainless steel in breweries, bakeries, meat factories, industrial kitchens and hospitals
- ✓ Corrosion protection throughout the food industry

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ A7 sub-registration possible

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stainless Steel Care Agent A7	400 ml	1903804	Standard spray head	-	65 x 157 mm	more information

E019 Impregnation Foam

Impregnating foam for universal use. Protects textiles from moisture and dirt. The powerful and environmentally friendly formula keeps the fabric supple and breathable. The fluorine-free foam contains particularly large particles to protect the environment and health.

Properties

- ✓ Very little misting due to innovative foam application
- ✓ Excellent protection against UV radiation, moisture and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Colour-neutral
- ✓ Perfect for multi-functional use
- ✓ Excellent material tolerance with textiles, leather, paints, rubber and sealing materials

Application area

- ✓ Smooth and rough leather
- ✓ Synthetic materials
- ✓ Shoes, jackets, sportswear, Outdoor items such as tents and backpacks
- ✓ Convertible hoods
- ✓ Awnings

ECO features

- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Approved particle size distribution
- ✓ Free from solvents

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Foam	300 ml	1903803	Standard spray head	With extended nozzle	53 x 205 mm	more information

E022 Air Freshener

Fast, efficient and safe odour elimination in the vehicle interior. Leaves no residues and contains no allergenic fragrances.

Properties

- ✓ Reliably eliminates unpleasant odours in the vehicle interior
- ✓ Leaves behind a fresh, neutral odour
- ✓ Fine active agent distribution – ideal for hard-to-reach areas
- ✓ Leaves no residue

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Does not form an explosive atmosphere

Application area

- ✓ Position can centrally in the interior, but not in the intake range of the air blower. Switch air-conditioning unit or air blower to circulating mode. Press spray head nozzle until it clicks into place. The can will be completely emptied in about 2.5 minutes. Ventilate well after use. Total application time approx. 10 minutes

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Air Freshener	100 ml	1903806	Vulkan spray head	-	45 x 105 mm	more information

E023 Odour Neutralizer Spray

Effectively removes unpleasant odours from seats and interiors. Leaves a pleasant, neutral odour and does not contain any allergenic fragrances.

Properties

- ✓ 2-in-1 Room and Textile Freshener
- ✓ Neutralises unpleasant odours
- ✓ Fine spray mist for optimum coverage

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane

Application area

- ✓ Car interior
- ✓ Seats and upholstery
- ✓ Curtains, sofas, carpets
- ✓ Clothes and shoes
- ✓ Bins

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Odour Neutralizer Spray	300 ml	1903799	Standard spray head	-	57 x 207 mm	more information

E008 Penetrating Oil Plus

Physiologically safe and environmentally friendly 2-in-1, water-based rust remover with long-term rust protection. The pH-neutral formulation gently removes stubborn rust on surfaces and parts.

Properties

- ✓ Long-term protection due to lubricating ingredients
- ✓ Removes rust chemically without acids (pH-neutral)
- ✓ Eco-friendly formulation (water-based)
- ✓ Releases even extremely stubborn connections after long exposure

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from n-hexane
- ✓ NSF H2 sub-registration possible

Application area

- ✓ For severely rusted steel and iron, for example barbecues, lawnmowers, garden tools, hinges, screws, nuts
- ✓ Surfaces made of steel and iron, for example gates and fences, bicycle spokes, rusty car and caravan parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Penetrating Oil Plus	300 ml	1903809	-	-	-	more information

E009 Silicone Spray

Physiologically safe, particularly high-yield silicone spray with excellent sliding and lubricating properties.

Properties

- ✓ Prevents adhesion
- ✓ Reduces wear
- ✓ Eliminates unpleasant squeaking noises
- ✓ Extremely good high and low temperature resistance from -50°C to +250°C
- ✓ Colourless, non-discolouring
- ✓ Good material tolerance
- ✓ Protects and nourishes surfaces

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ NSF H1 sub-registration possible

Application area

- ✓ Moving parts on machines
- ✓ Material pairs such as plastic/plastic or plastic/metal

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Silicone Spray	300 ml	1903810	S7 spray head	-	57 x 164 mm	more information

E010 Maintenance Oil

Versatile solvent-free maintenance oil with excellent lubrication and cleaning properties. Repels water and protects machines and conveyors from corrosion.

Properties

- ✓ Colourless
- ✓ Acts as a water repellent and protects machines and tools from corrosion
- ✓ Outstanding lubricating properties, even in hard-to-reach areas
- ✓ Good material tolerance

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ NSF H1 sub-registration possible

Application area

- ✓ For the maintenance of machines, tools and conveyors
- ✓ Lubricates and protects pipe fittings, joints, locks, fasteners, hinges, bushes, retention and clamping devices

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Maintenance Oil	300 ml	1903811	Standard spray head	With extended nozzle	57 x 164 mm	more information

E015 Mounting Paste

Fully synthetic physiologically safe mounting paste based on calcium sulphate for challenging applications, including in the food industry.

Properties

- ✓ Very high load supporting capacity
- ✓ Reliable protection against wear
- ✓ Low friction values due to boron nitride
- ✓ Excellent corrosion protection, Protects parts against wear

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ NSF H1 sub-registration possible

Application area

- ✓ For lubricating and separating components exposed to high static and dynamic loads
- ✓ For screw connectors as well as slide guides, slide bearings and spindle drives
- ✓ For assembly and dismantling work
- ✓ Prevents fretting corrosion

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Mounting Paste	1 kg	1903818	-	-	-	more information

E014 Drilling and Cutting Oil

Mineral oil-based universal cutting oil for light to medium-duty machining and high cutting speeds.

Properties

- ✓ Extended service life of the tool due to very good heat dissipation
- ✓ Cools even while spraying
- ✓ Removes resinified residues and deposits
- ✓ Good material tolerance
- ✓ Good corrosion protection

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from n-hexane

Application area

- ✓ For machining normal and high alloy steels
- ✓ As a preservative for finished and machine parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Drilling and Cutting Oil	400 ml	1903814	Standard spray head	With extended nozzle	65 x 157 mm	more information

E005 Multi Oil Ecolabel

Biodegradable multi-purpose oil based on renewable raw materials, in dispenser bottle made of 100% recycled material. Ingredients tested using the LuSC list for degradability, aquatic toxicity and renewability.

Properties

- ✓ Excellent reduction of friction and wear as well as good load support capacity
- ✓ Reliable protection against corrosion
- ✓ Good temperature properties due to special additives

Application area

- ✓ Bolts, screws, nuts, pipe fittings, joints, locks, etc.
- ✓ Fasteners, hinges, bushes, chains
- ✓ Plastic and metal parts

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from propellants
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ ECO label sub-registration possible

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multi Oil Ecolabel	50 ml	1903655	-	-	-	more information

E007 Multi-Purpose Oil

Multi-purpose, physiologically safe synthetic oil, also for use in the food industry. For all applications where the use of products of physiologically safe, mineral oil-based, critical additives and/or critical solvents is not desired.

Properties

- ✓ Loosens, lubricates, maintains and protects
- ✓ Penetrates rust and corrosion to provide effective rust removal
- ✓ Protects against corrosion
- ✓ Produces a thin, viscous protective film that protects against moisture, displaces water

Application area

- ✓ Bolts, screws, nuts, pipe fittings, joints, locks etc.
- ✓ Fasteners, hinges, bushes, chains
- ✓ Plastic and metal parts
- ✓ Electrical contacts

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ NSF H1 sub-registration possible

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multi-Purpose Oil	400 ml	1903808	S7 spray head	-	65 x 157 mm	more information

E006 Multi-Purpose Oil Ecolabel

Biodegradable multi-purpose oil based on renewable raw materials, in a practical pump bottle. Ingredients tested using the LuSC list for degradability, aquatic toxicity and renewability.

Properties

- ✓ Excellent reduction of friction and wear as well as good load support capacity
- ✓ Reliable protection against corrosion
- ✓ Good temperature properties due to special additives

Application area

- ✓ Bolts, screws, nuts, pipe fittings, joints, locks, etc.
- ✓ Fasteners, hinges, bushes, chains
- ✓ Plastic and metal parts

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from propellants
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multi-Purpose Oil Ecolabel	250 ml	1903656	-	-	45 x 190 mm	more information

E011 Adhesive Oil Spray HV

Physiologically safe special lubricant with very good creepage properties. This highly viscous adhesive oil reduces friction and wear under high compressive loads and can also be used in food areas.

Properties

- ✓ Very good creepage properties
- ✓ Very good at reducing friction and wear, even under high compressive loads
- ✓ Excellent resistance properties against cold and hot water
- ✓ Protects non-ferrous base metal against damage and corrosion
- ✓ Excellent bonding due to adhesive force

Application area

- ✓ Suitable for universal lubrication for high pressure loads, for example for chains, linkages, joints, levers, bearings, slide surfaces, cables, open drives and hinges

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free from allergenic fragrances
- ✓ Free from n-hexane
- ✓ NSF H1 sub-registration possible

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Adhesive Oil Spray HV	500 ml	1903812	Standard spray head	-	65 x 195 mm	more information

E012 Adhesive Oil Spray LV

Physiologically safe special lubricant with very good adhesion for lubricating moving parts, including in food areas. This moderately viscous adhesive oil is ideal for lubricating high speed rotary parts.

Properties

- ✓ Excellent lubricating effect even at high temperatures and loads
- ✓ Outstanding adhesion to high speed rotary parts
- ✓ Odour-neutral
- ✓ Protects against corrosion
- ✓ Good material tolerance

ECO features

- ✓ Free allergenic fragrances
- ✓ Free from n-hexane
- ✓ Free from solvents
- ✓ NSF H1 sub-registration possible

Application area

- ✓ Lubrication of conveyor belts, gears, joints, bolts, hinges, rolling bearings, screws etc.

Description	Contents	Art. Nr.	Type of sprayhead	Design	Container size DxH	Product information
LV Adhesive Oil Spray	500 ml	1903813	S7 spray head	-	65 x 195 mm	more information

E013 Grease Spray

Fully synthetic universal spray grease with very good corrosion and wear protection. The physiologically safe grease is suitable for use in the food preparation industry.

Properties

- ✓ Very good corrosion and oxidation protection
- ✓ Excellent friction reduction and wear protection due to high pressure rating
- ✓ Resistant to cold and hot water for excellent long-term corrosion protection

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free allergenic fragrances
- ✓ Free from n-hexane
- ✓ NSF H1 sub-registration possible

Application area

- ✓ Movable metallic components such as joints, hinges, sliding parts, locking wedges, locking cylinders, locks, sliding rails, etc.
- ✓ Fasteners, hinges, bushes, chains
- ✓ Plastic and metal parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Grease Spray	400 ml	1903820	Standard spray head	With extended nozzle	65 x 157 mm	more information

E020 Hand Disinfectant Gel

Hand disinfectant gel is effective against bacteria, fungi and enveloped viruses. Special crackling effect cools and refreshes skin. The practical 100 ml can makes this product ideal for use while out and about or travelling.

Properties

- ✓ Disinfects, cleans, protects
- ✓ Effective against bacteria, fungi and enveloped viruses
- ✓ Leaves hands feeling soft and supple
- ✓ Suitable for vegans and allergy sufferers
- ✓ Free from perfumes, silicone, soap, dyes and parabens
- ✓ Cools and refreshes skin with a pleasant crackling effect
- ✓ Ideal for on the go thanks to practical travel size

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free allergenic fragrances
- ✓ Free from n-hexane

Application area

- ✓ Hygienic hand sanitising
- ✓ For trade, business, industry and general use

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Hand Disinfectant Gel	100 ml	1903800	-	-	45 x 105 mm	more information

E021 Hand and Surface Disinfection

The disinfectant works effectively against enveloped viruses (such as coronavirus SARS-CoV-2) and bacteria. The product is effective after an application time of just 30 minutes. The 2-in-1 product can be used as a surface disinfectant or hand sanitiser.

Properties

- ✓ Disinfects, cleans, protects
- ✓ Perfume-free and free from active substances with cumulative long-term effects
- ✓ Works in just 30 seconds
- ✓ Good material tolerance

ECO features

- ✓ Free from microplastics
- ✓ Free from fluorine compounds
- ✓ Free allergenic fragrances
- ✓ Free from n-hexane

Application area

- ✓ Suitable for sanitising the hands and disinfecting all washable surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Hand and Surface Disinfection	300 ml	1903801	Standard spray head	-	53 x 205 mm	more information

Bike

- ✓ Cleaning
- ✓ Care
- ✓ Lubrication

B001 Brake Cleaner

Special cleaner for bicycle brake discs. Removes and dissolves oily dirt, grease and silicone on brake discs, clutch parts, gearbox parts, cables, tool parts etc. Abrasive dust is bound and washed away.

Properties

- ✓ Removes oil, grease, resin and silicone
- ✓ For completely degreasing brake discs/systems
- ✓ Dries quickly
- ✓ High-pressure spray for optimized cleaning effect, even in hard-to-reach places
- ✓ Also for e-bikes

Application area

- ✓ Bike maintenance
- ✓ Bike repair
- ✓ Bike assembly
- ✓ Bike cleaning

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Cleaner	500 ml	1903659	Standard spray head	With extended nozzle	65 x 195 mm	more information

B002 Brake Cleaner, n-hexane free

This special cleaner for bike brake discs has a lower effect on health due to its n-hexane free formulation. It removes dust, encrusted dirt, oil, grease, resin and corrosion protection layers. Abrasive dust is bound and washed away.

Properties

- ✓ Very good cleaning effect
- ✓ Tested ingredients, n-hexane free
- ✓ Reduced risk of fire and its consequences
- ✓ Lower explosion limit >1.5% vol.
- ✓ TÜV tested (second certificate possible)
- ✓ Lowest hazard potential
- ✓ Recommended product according to hazardous substances regulation (protection level 2)

Application area

- ✓ Bike maintenance
- ✓ Bike repair
- ✓ Bike assembly
- ✓ Grease and resin deposits

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Brake Cleaner, n-hexane free	400 ml	1903660	Standard spray head	-	65 x 157 mm	more information

B003 Drive Cleaner

The innovative drive cleaner for bicycles removes stubborn dirt from the chain, cassette and derailleur. Optimum creep characteristics ensure that even the smallest gaps are reached.

Properties

- ✓ Highly efficient and fast cleaning of all drive components
- ✓ Excellent creep ability
- ✓ Removes stubborn dirt
- ✓ Very good material compatibility
- ✓ Suitable for e-bikes

Application area

- ✓ Chain
- ✓ Cassette
- ✓ Rear derailleur

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Drive Cleaner	400 ml	1903662	Juno spray head	With extended nozzle	57 x 207 mm	more information

B004 Bike Cleaner

This biodegradable multifunctional special cleaner for bikes removes stubborn dirt such as fats, oils and other dirt deposits.

Properties

- ✓ Very good cleaning effect
- ✓ Excellent adhesion and treatment time even on vertical surfaces
- ✓ Protects against corrosion
- ✓ Biodegradable
- ✓ Also for e-bikes

Application area

- ✓ Bike cleaning
- ✓ Bike maintenance
- ✓ Plastic, rubber, chrome or paint

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Bike Cleaner	1 l	1903665	Trigger spray head	Plastic straps	-	more information

B011 Suspension Cleaner

The suspension cleaner cleans and maintains suspension forks and dampers. It removes the smallest contamination and dust while maintaining the sealing rings with a water-resistant silicone film. This improves the response of the suspension fork.

Properties

- ✓ Very good cleaning effect on dust and micro-contaminants
- ✓ Improves reaction behavior of suspension fork
- ✓ Maintains and protects sealing rings
- ✓ Silicone film is water-resistant
- ✓ No harmful solvents
- ✓ Very good material compatibility

Application area

- ✓ Suspension forks
- ✓ Dampers
- ✓ Seals

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Suspension Cleaner	100 ml	1903674	S7 spray head	-	45 x 96 mm	more information

B012 Frame Finish

The solvent-free special spray cleans and maintains bike frames. The efficient anti-static effect slows down re-soiling.

Properties

- ✓ Very good cleaning effect
- ✓ Protects against re-soiling
- ✓ Water-resistant
- ✓ Gives new shine
- ✓ Solvent-free
- ✓ Good material compatibility
- ✓ Also for e-bikes

Application area

- ✓ Bike frame

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Frame Finish	400 ml	1903675	S7 spray head	-	57 x 207 mm	more information

B013 Impregnation Spray

Neutral in colour, high-performance, particularly environmentally friendly and universal impregnation spray. Ideal for functional clothing.

Properties

- ✓ Optimal protection against UV rays, wetness and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Especially environmentally friendly since it is free of fluorocarbon compounds such as PFOS and PFOA
- ✓ Excellent for multifunctional use
- ✓ Excellent material compatibility with fabrics, leather, lacquers, rubber etc.

Application area

- ✓ Synthetic materials like smooth and rough leather
- ✓ Shoes, jackets, sportswear
- ✓ Outdoor items such as tents and backpacks

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Spray	400 ml	1903663	Standard spray head	With extended nozzle	57 x 207 mm	more information

B014 Impregnation Spray, fluoride-free

Universal, fluoride-free impregnation spray. Protects textiles from moisture and dirt. The powerful and environmentally friendly formula keeps the fabric supple and breathable. Particularly suited for functional clothing.

Properties

- ✓ Optimal protection against UV rays, wetness and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Colour-neutral
- ✓ Free of fluorocarbon compounds that can accumulate in the body and the environment
- ✓ Excellent for multifunctional use
- ✓ Excellent material compatibility with fabrics, leather, lacquers, rubber etc.
- ✓ Also for e-bikes

Application area

- ✓ Synthetic materials like smooth and rough leather
- ✓ Shoes, jackets, sportswear
- ✓ Outdoor items such as tents and backpacks

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Spray, fluoride-free	400 ml	1903664	Standard spray head	-	57 x 207 mm	more information

B021 Chain Oil Spray

High-quality chain oil with excellent protection and lubrication, as well as outstanding corrosion protection. Ideal long-term care for all moving bike components.

Properties

- ✓ Extremely good friction value and wear reduction
- ✓ High creep effect
- ✓ Very good adhesion effect and thus optimal long-term lubrication
- ✓ Excellent corrosion protection
- ✓ Weather resistant
- ✓ Also for e-bikes

Application area

- ✓ Components such as drive train, chains, ropes, lifting, joints, hinges, linkages, sliding points, guides etc.

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Chain Oil Spray	100 ml	1903676	Juno spray head	-	45 x 96 mm	more information

B023 Chain Wax

Semi-synthetic, bright, highly adhesive chain wax with special additives to prevent ageing, corrosion and wear. The high PTFE solids content ensures grease-free sealing of the entire surface after treatment with chain oil.

Properties

- ✓ Wax-like dry film that does not attract dirt
- ✓ Water repellent to provide protection against corrosion
- ✓ Optimal friction value reduction thanks to special additives
- ✓ Excellent adhesion, no dripping or running, creep age and penetration
- ✓ Outstanding damping properties and extremely UV-resistant

Application area

- ✓ Bike maintenance
- ✓ Bike repair
- ✓ Chains, sliding surfaces, splines, cardan and universal joints, spindles, guides and gears

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Chain Wax	100 ml	1903678	Juno spray head	-	45 x 96 mm	more information

B022 Chain Oil Dispensing Bottle

High-quality chain oil with excellent protection and lubrication, as well as outstanding corrosion protection. Ideal long-term care for all moving bike components.

Properties

- ✓ Extremely good friction value and wear reduction
- ✓ High creep effect
- ✓ Very good adhesion effect and thus optimal long-term lubrication
- ✓ Excellent corrosion protection
- ✓ Weather resistant
- ✓ Targeted spot application
- ✓ Also for e-bikes

Application area

- ✓ Components such as drive train, chains, ropes, lifting, joints, hinges, linkages, sliding points, guides etc.

Description	Contents	Art. Nr.	Type of spr head	Design	Container size DxH	Product information
Chain Oil Dispensing Bottle	100 ml	1903667	-	Plastic straps	57 x 207 mm	more information

B024 Bearing Grease

The bearing grease protects all moving parts on the bicycle. The gear hubs, control kits and bottom brackets are optimally lubricated by the dirt-repellent special lubricant.

Properties

- ✓ Effective corrosion protection
- ✓ High pressure and temperature resistance
- ✓ Resistant to external influences such as splashes and salt water
- ✓ Absorbs standing water and moisture from evaporation
- ✓ Very good damping properties
- ✓ No run-in damage, friction or wear on bearings, sliding points, screw joints or plug-in connections
- ✓ Also for e-bikes

Application area

- ✓ Bike maintenance
- ✓ Bike repair
- ✓ Bike storage
- ✓ Moving bike parts

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Bearing Grease	100 g	1903668	-	-	-	more information

B025 Multifunction Oil

The mineral oil-based, universally applicable multi-function oil is suitable for five application areas: Corrosion protection, lubrication, cleaning, rust removal and contact spray.

Properties

- ✓ Very good rust and corrosion penetration for effective rust removal
- ✓ Very good lubricating properties
- ✓ Disbanding of dirt, grease and oil residues
- ✓ Produces a thin, viscous protective film that protects against moisture even on the smallest imperfections
- ✓ Suppresses water and moisture
- ✓ Suitable for e-bikes

Application area

- ✓ Moving bike components
- ✓ Loosens surface rust, rusted screws, nuts, joints, Bowden cables, shafts, locks etc.
- ✓ Lubricates closures, bushings, chains, locks
- ✓ Cleans and maintains plastic and metal parts
- ✓ Prevents corrosion on metals and electrical assemblies, cable connections, relays, connectors, couplings etc.

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Multifunction Oil	100 ml	1903671	S7 spray head	-	45 x 96 mm	more information

B026 Multifunction Oil Premium

Mineral oil-based multifunction oil with special additives provides maximum protection against corrosion, oxidation and wear and protection for non-ferrous metals. It eliminates surface rust, lubricates bearing and damper joints and maintains the bike surfaces.

Properties

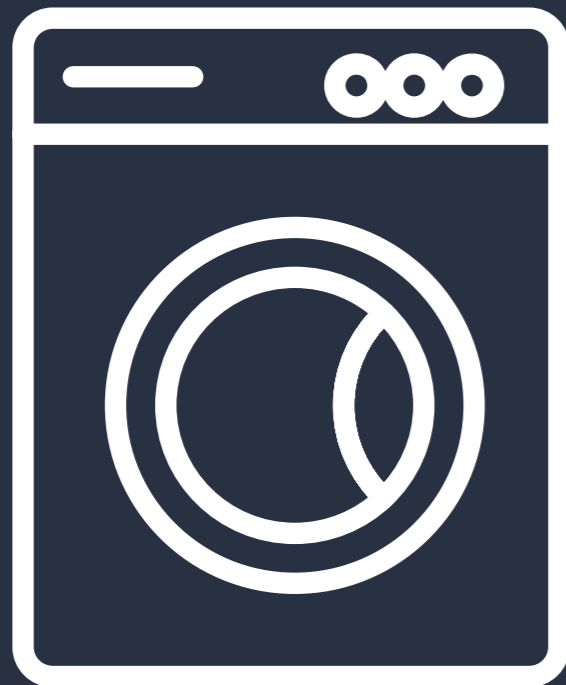

- ✓ Excellent rust penetration and high degree of rust removal due to optimal creep properties
- ✓ Very good against wear and oxidation
- ✓ Outstanding water displacement
- ✓ Very good corrosion protection
- ✓ Good material compatibility
- ✓ Suitable for e-bikes

Application area

- ✓ Moving bike components
- ✓ Loosens surface rust, rusted screws, nuts, joints, Bowden cables, shafts, locks etc.
- ✓ Lubricates closures, bushings, chains, locks
- ✓ Cleans and maintains plastic and metal parts
- ✓ Prevents corrosion on metals and electrical assemblies, cable connections, relays, connectors, couplings etc.

Multifunction Oil Premium	100 ml	1903670	S7 spray head	-	45 x 96 mm	more information

Household

- ✓ Cleaning
- ✓ Care

H001 Grill Cleaner

Extremely powerful oven and barbecue cleaner with long-lasting and very adhesive foam.

Properties

- ✓ Excellent cleaning performance, especially for sooty and greasy soiling
- ✓ Specially formulated foam enables excellent adhesion and application time, even on vertical surfaces
- ✓ Improved contact between the cleaner and dirt compared to conventional foams
- ✓ Easy and thorough rinsing with water

Application area

- ✓ For burnt-on and greasy dirt on the oven, grill, grill pan
- ✓ To prevent sooty dirt on the fireplace glass
- ✓ Not suitable for aluminium

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Grill Cleaner	500 ml	1903980	Standard spray head	-	65 x 195 mm	more information
Grill Cleaner	400 ml	1904087	Standard spray head	-	57 x 207 mm	more information

H003 Stove and Oven Cleaner

Powerful foam-based oven cleaner.

Properties

- ✓ Good cleaning performance, especially for sooty and greasy soiling
- ✓ Foam formulation allows good adhesion and application time with excellent contact between the cleaner and dirt
- ✓ Easy and thorough rinsing with water
- ✓ Mild formulation - pH value <11.5

Application area

- ✓ For burnt-on and greasy dirt on the oven, grill, grill pan
- ✓ To prevent sooty dirt on the fireplace glass
- ✓ Not suitable for aluminium

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stove and Oven Cleaner	500 ml	1902791	Standard spray head	-	65 x 195 mm	more information

H002 Stove and Oven Cleaning Foam

Powerful cleaning foam to stop sooty dirt. Universal, especially for ovens, grills and fireplace glass.

Properties

- ✓ Good cleaning performance, especially with rusted and burnt-on dirt
- ✓ Highly adhesive foam enables excellent adhesion and application time, even on vertical surfaces
- ✓ Easy and thorough rinsing with water
- ✓ Mild formulation - pH value <11.5

Application area

- ✓ Oven
- ✓ Baking tray
- ✓ Microwave
- ✓ Grill
- ✓ Fireplace glass

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stove and Oven Cleaning Foam	400 ml	1902566	Standard spray head	-	57 x 207 mm	more information
Stove and Oven Cleaning Foam	500 ml	1903667	Standard spray head	-	65 x 195 mm	more information

H004 Ceramic and Glass Cleaner

Spray-based ceramic glass cleaner with abrasive particles, extremely effective against burnt-on stains.

Properties

- ✓ Excellent cleaning performance, especially for sooty and burnt-on dirt
- ✓ Gel formulation with abrasive particles mechanically helps to remove burnt-on dirt
- ✓ Practical spray formulation makes for extremely simple use and distribution of the cleaner
- ✓ Reduced cleaning effort - spray the cleaner and let the active formula take effect, then mechanically rework
- ✓ Easy and thorough rinsing with water

Application area

- ✓ For heavily burnt-on and greasy stains on glass and ceramics
- ✓ Not suitable for aluminium

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Ceramic and Glass Cleaner	400 ml	1901642	Standard spray head	-	57 x 207 mm	more information
Ceramic and Glass Cleaner	300 ml	1902328	Standard spray head	-	52 x 195 mm	more information

H006 Bath and Toilet Cleaner

Acidic cleaning foam to combat lime, dirt and soap residue. New powerful foam/gel formulation, also adheres to vertical surfaces.

Properties

- ✓ Extremely powerful cleaning performance against lime, water stains, dirt and soap residues
- ✓ Innovative new combination of foam and gel ensures optimal adhesion to vertical surfaces such as tiled shower cubicles and glass panes
- ✓ Extremely long-lasting foam ensures optimal reaction time and reduces amount of work required

Application area

- ✓ For cleaning shower walls, taps, glass doors, sinks, tiles, bathtubs, toilets, chrome, stainless steel and ceramic sinks
- ✓ Not suitable for use on hot and damaged surfaces or surfaces sensitive to acid (e.g. gold, silver, copper or aluminium), coloured or old/damaged enamel surfaces, household appliances (incl. kettles) as well as natural stone (e.g. marble)

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Bath and Toilet Cleaner	300 ml	1902275	Standard spray head	-	57 x 207 mm	more information

H007 Plastic Cleaner

2-in-1 combination product for cleaning and protective application on all smooth surfaces (e.g. plastic, metal, painted surfaces). The natural beeswax component ensures long-lasting care with a gloss effect.

Properties

- ✓ Cleans and maintains smooth surfaces
- ✓ Gloss effect due to natural beeswax and silicone oils
- ✓ Removes impurities and fine surface scratches
- ✓ Environmentally friendly formulation (aqueous base)

Application area

- ✓ Smooth and painted surfaces
- ✓ Plastic, Steel, metal and iron components
- ✓ Surface polish

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Plastic Cleaner	300 ml	1903259	Standard spray head	-	53 x 205 mm	more information

H010 Stain Remover Express

For the treatment of stains when travelling or in emergencies, as well as for non-washable textiles.

Properties

- ✓ Removes oily and greasy dirt and stains from textiles without washing
- ✓ For use on non-washable textiles such as carpets, covers, upholstery etc.
- ✓ Highly effective against animal fats and vegetable oils such as butter and cooking oil, making it ideal for removing stains on textiles and clothing when travelling

Application area

- ✓ Use early on fresh spots to ensure the best results

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stain Remover Express	200 ml	1901770	Standard spray head	-	52 x 132 mm	more information
Stain Remover Express	300 ml	1902417	Standard spray head	-	52 x 195 mm	more information

H011 Stain Remover Prewash

For the targeted pre-treatment of stubborn stains.

Properties

- ✓ Targeted pre-treatment of stubborn stains
- ✓ Removes fresh and dried stains and dirt from textiles
- ✓ Penetrates deep into the textile fibres for optimal stain removal
- ✓ Protects fibres from dirt deposits forming during removal, as well as from new dirt
- ✓ Gentle on colours and materials, as well as reduced wear and tear of the textile
- ✓ Suitable for white and cotton washes and only a stain remover is required
- ✓ As eco-friendly as possible through substances that are more readily biodegradable

Application area

- ✓ Suitable for white and cotton washes

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stain Remover Prewash	300 ml	1902161	Standard spray head	-	52 x 195 mm	more information

H009 Stainless Steel Care aqueous

Care spray for stainless steel surfaces in the food and drinks industry. Cleans and protects against corrosion.

Properties

- ✓ Cleans, protects and maintains at the same time
- ✓ Protects against corrosion
- ✓ Good reduction in friction value

Application area

- ✓ Industrial kitchens
- ✓ Hospitals
- ✓ Stainless steel surfaces

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Stainless Steel Care aqueous	500 ml	1902284	Standard spray head	-	65 x 195 mm	more information
Stainless Steel Care aqueous	300 ml	1902330	Standard spray head	-	52 x 195 mm	more information

H014 Leather Care

Nourishing colourless spray with lanolin for treating scuffed leather.

Properties

- ✓ Nourishes scuffed leather and keeps it supple for longer
- ✓ Prevents wear and helps the leather last longer
- ✓ Leaves no visible residues
- ✓ Refreshes the colour of the leather and restores shine

Application area

- ✓ Suitable for all common types of smooth leather, such as leather sofas, armchairs, settees, chairs and bags
- ✓ Not suitable for suede or Alcantara

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Leather Care	300 ml	1901211	Standard spray head	-	52 x 195 mm	more information
Leather Care	500 ml	1902286	Standard spray head	-	65 x 195 mm	more information

H013A Ironing Aid

The special 2-in-1 formulation not only ensures wrinkle-free laundry in no time, but strengthens the fabric and shapes it at the same time. The ingredients are optimally coordinated - prevents the iron from sticking

Properties

- ✓ Even distribution through aerosol application
- ✓ Soft and supple feel
- ✓ Strengthens the fibres and shapes the laundry
- ✓ Prevents the iron from sticking

Application area

- ✓ Natural fibres
- ✓ Synthetic fibres
- ✓ Mixed fabric

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Ironing Aid	500 ml	1902771	Standard spray head	-	65 x 195 mm	more information

H017 Impregnation Spray

Universal waterproofing spray. Neutral in colour and powerful. For leather, synthetic and outdoor items such as garden furniture and awnings.

Properties

- ✓ Protection from moisture, stains and UV rays
- ✓ Keeps the fabric supple and breathable
- ✓ Free of fluorine compounds such as PFOS or PFOA
- ✓ Excellent material compatibility with textiles, leather, paints, rubber, sealing materials, PVC and acrylic glass

Application area

- ✓ Leather items such as smooth and rough leather shoes
- ✓ Synthetic materials such as sportswear, tents, backpacks
- ✓ Garden furniture
- ✓ Convertible roofs and awnings made of fabric or plastic

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Spray	300 ml	1903411	Standard spray head	-	52 x 195 mm	more information

H018 Impregnation Spray fluoride-free

Universal, fluoride-free waterproofing spray. Protects textiles from moisture and dirt. The powerful and environmentally friendly formula keeps the fabric supple and breathable.

Properties

- ✓ Optimal protection against UV radiation, moisture and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Colour-neutral
- ✓ Free from fluorocarbon compounds
- ✓ Perfect for multi-functional use
- ✓ Excellent material tolerance with fabrics, leather, paints, rubber and sealing materials

Application area

- ✓ Smooth and rough leather
- ✓ Synthetic materials
- ✓ Shoes, jackets, sportswear,
- ✓ Outdoor items such as tents and backpacks
- ✓ Convertible soft tops
- ✓ Awnings

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Spray fluoride-free	400 ml	1902903	Standard spray head	-	57 x 207 mm	more information

H019 Impregnation Foam fluoride-free

Universal, fluoride-free waterproofing foam. Protects textiles from moisture and dirt. The powerful and environmentally friendly formula keeps the fabric supple and breathable.

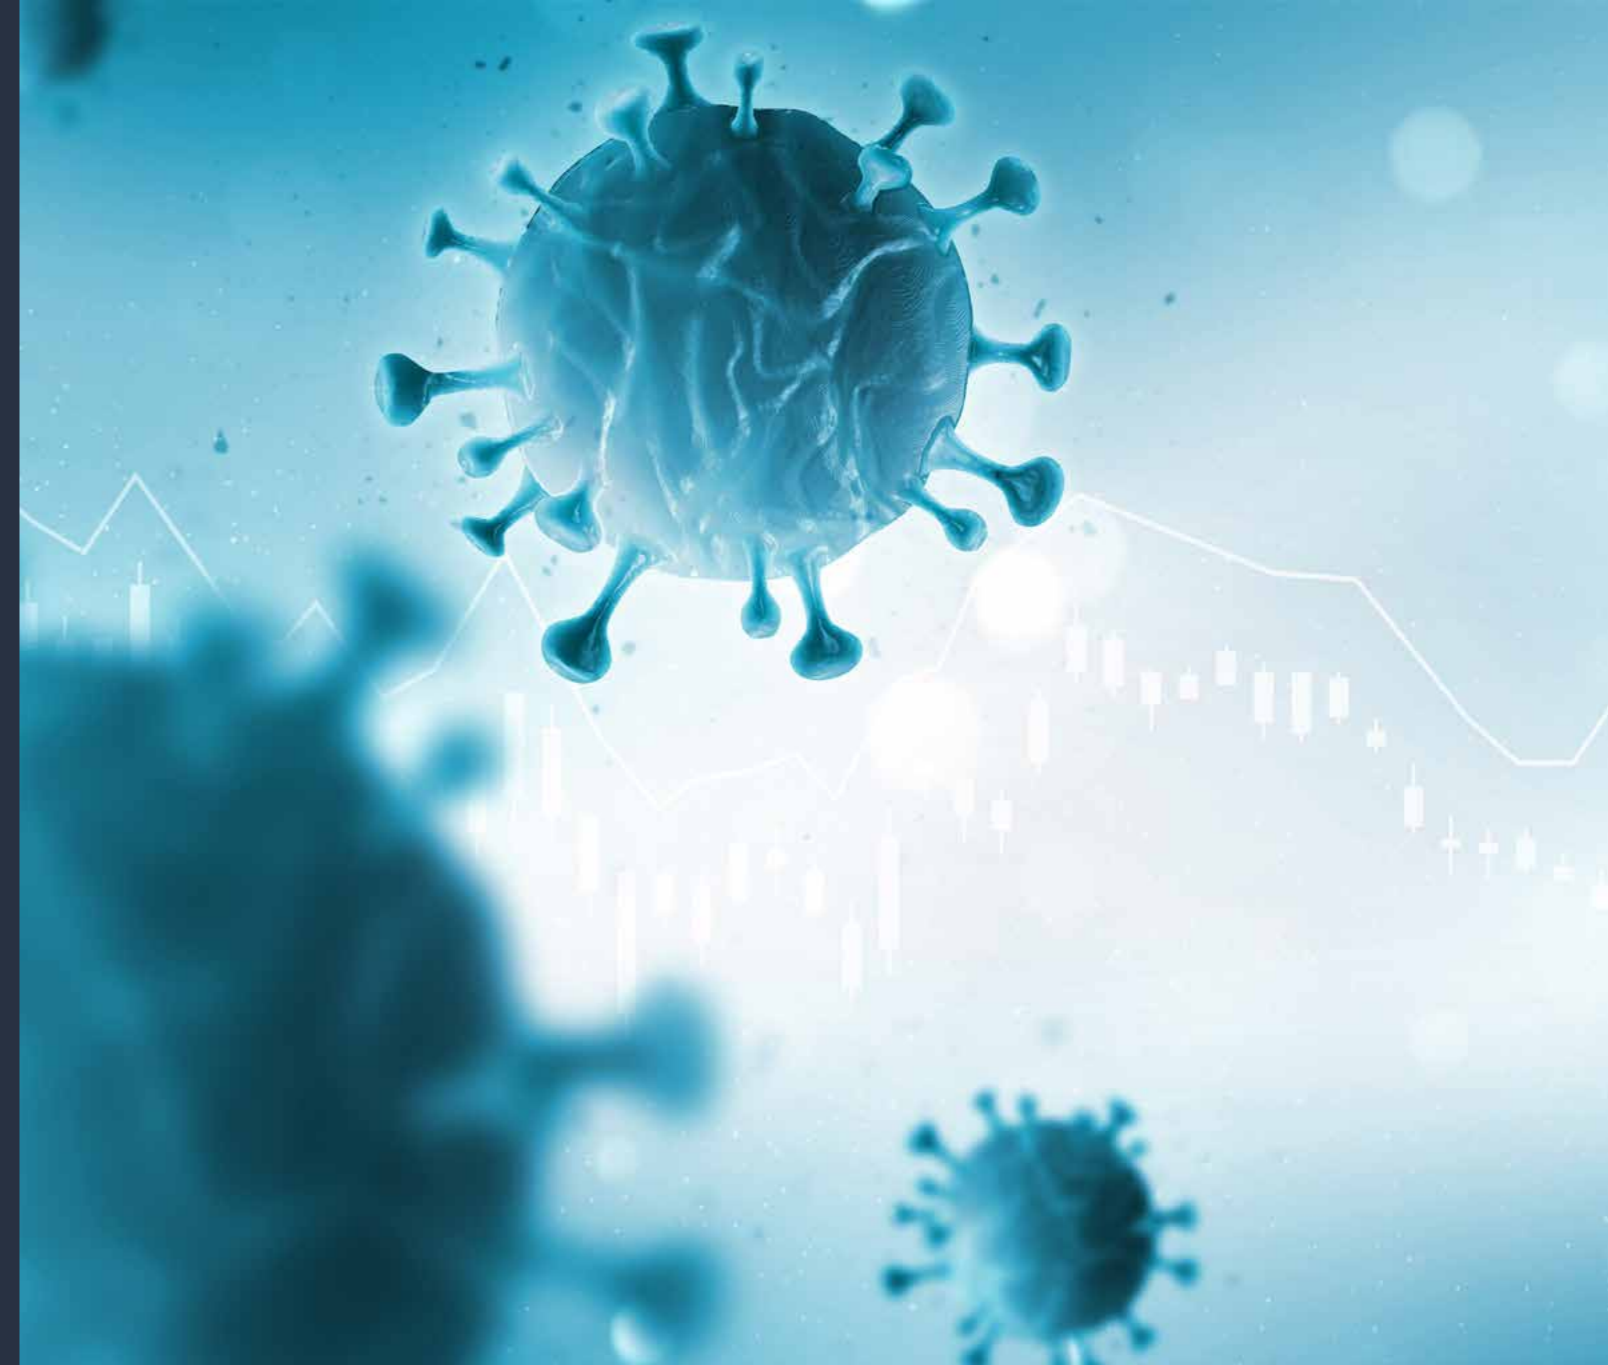

Properties

- ✓ Optimal protection against UV radiation, moisture and stain formation
- ✓ Keeps the fabric supple and breathable
- ✓ Colour-neutral
- ✓ Free from fluorocarbon compounds
- ✓ Perfect for multi-functional use
- ✓ Excellent material tolerance with fabrics, leather, paints, rubber and sealing materials

Application area

- ✓ Smooth and rough leather
- ✓ Synthetic materials
- ✓ Shoes, jackets, sportswear,
- ✓ Outdoor items such as tents and backpacks
- ✓ Convertible soft tops
- ✓ Awnings

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Impregnation Foam fluoride-free	300 ml	1902474	Standard spray head	-	53 x 205 mm	more information

L019 Hand Disinfectant Gel

Hand Disinfectant Gel is effective against bacteria, fungi and enveloped viruses. Special crackling effect cools and refreshes skin. The practical 100 ml can makes this product ideal for use while out and about or travelling.

Properties

- ✓ Disinfects, cleans, protects
- ✓ Effective against bacteria, fungi and enveloped viruses
- ✓ Works in just 30 seconds
- ✓ Leaves hands feeling nourished and soft
- ✓ Suitable for vegans and allergy sufferers
- ✓ Free from perfumes, silicone, soap, dyes and parabens
- ✓ Cools and refreshes skin with pleasant crackling effect

Application area

- ✓ Hygienic hand sanitising
- ✓ For trade, business, industry and general use

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Hand Disinfectant Gel	100 ml	1903312	Standard spray head	-	45 x 105 mm	more information

L016 Disinfectant Surface Cleaner

Surface disinfectant for all washable objects and surfaces. The highly efficient formula disinfects, cleans and protects glass, plastic and metal surfaces.

Properties

- ✓ The surface disinfectant was tested in the EUROVIR® Hygiene-Labor, which tests disinfectants and processes for their viral effectiveness
- ✓ Proven efficacy against enveloped viruses such as the SARS-CoV-2 coronavirus
- ✓ Disinfects, cleans, protects
- ✓ Good material compatibility

Application area

- ✓ For thorough disinfection of glass, plastic and metal surfaces
- ✓ For controlling bacteria and viruses

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Disinfectant Surface Cleaner	1 l	1903238	-	-	79 x 249 mm	more information

L016A Surface Hygienic Cleaner

Alcohol-based disinfectant (70 vol%) for all washable objects and surfaces. The alcohol solution cleans glass, fabric, leather, plastic and metal surfaces.

Properties

- ✓ Effectively cleans and protects
- ✓ Leaves no residue
- ✓ Contains 70 vol% alcohol
- ✓ Dries quickly

Application area

- ✓ For cleaning large areas
- ✓ For disinfecting various surfaces in the automotive, workshop, office, household, workplace, sports and leisure sector

Description	Contents	Art. Nr.	Type of spray head	Design	Container size DxH	Product information
Surface Hygienic Cleaner	1 l	1903411	-	Plastic straps	79 x 249 mm	more information

L017A Hand and Surface Disinfection

The disinfectant is effective against enveloped viruses (e.g. Corona SARS-CoV-2) and bacteria. The product is effective after an application time of just 30 minutes. The 2-in-1 product can be used as a surface disinfectant or hand sanitiser.

Properties

- ✓ Disinfects, cleans, protects
- ✓ Perfume-free and free from active substances with cumulative long-term effects
- ✓ Good material compatibility
- ✓ Works in just 30 seconds

Application area

- ✓ Suitable for sanitising the hands and disinfecting all washable surfaces
